Hintastica Private Limited (HPL) is India's leading provider of Consumer Water & Electrical Heating solutions. It is a joint venture of Hindware Home Innovation Limited & Groupe Atlantic of France. Groupe Atlantic is a 2.7 billion Euro company with over 50 years in water heaters and heating solutions & Hindware Home Innovation Limited (HHIL) is the fastest-growing player in Consumer Appliances and the leader in the Building Product segment in India.

The Joint Venture company HPL, aims at creating a strong customer base by offering innovative products to Indian consumers as well as to neighbouring nations in the SAARC region. HPL leverages Groupe Atlantic's

proven prowess in manufacturing and R&D with HHIL's vast marketing and distribution capabilities to deliver to the consumer a range of high-quality products and accessories; all under the brand name 'Hindware Smart Appliances'. The company has set-up a state-of-the-art manufacturing plant in Telangana. The project is in line with the Government of India's 'Make in India' initiative and all components are sourced from within India. The plant with a production capacity of 6 lac units annually is built on a plot of 5.7 acres.

At HPL we aim to offer customer delight by delivering convenience, ease of usage with the best of technology and quality standards.

EUROPE'S LEADING HEATING VENTILATION  
AND AIR CONDITIONING COMPANY

## A RENOWNED FRENCH BRAND WORLDWIDE

Atlantic is a well-established and renowned French brand, an expert in all types of heating systems and home comfort appliances with a worldwide presence. Atlantic was founded in 1968, by Mr. Radat and Mr. Lamoure, in la Roche-sur-Yon, a city from the Vendee region, located on the West coast of France.

Premium design, constant innovation and cutting-edge technology are the guiding principles at Atlantic. The company has developed a complete range of modern and reliable equipment's such as water heaters, electric heaters, bathroom heaters, solar water heaters, heat pumps. Today, Atlantic is well established in France and over 70 countries across Western and Eastern Europe, Near and Middle East, Africa, South America and even Asia-Pacific, with an ongoing growth and deployment across the world.

Groupe Atlantic controls more than 60 percent of the French Domestic Hot Water (DHW) market, the biggest market for electrical domestic comfort products worldwide. The company has grown in size to employ 12,000 people and generates an annual turnover of 2.7 billion Euro today. A substantial amount of Groupe Atlantic's turnover is committed to the development of new products, which is a reflection of the organization's dedication to innovation, Research & Development. With more than 2.8 million water heaters manufactured every year, Group Atlantic provides an extremely large

range of storage DHW tanks from 10L to 3000L capacity. The group has built a strong brand portfolio of thermal comfort solutions since its creation, including domestic and commercial water heaters, renewable energy heaters and water heaters, room and bathroom heaters. Worldwide, the Groupe owns 17 brands, 6 dedicated water heater manufacturing plants, 31 industrial sites, 4 commercial operations across 4 continents and many more.

This joint venture between Groupe Atlantic and Hindware Home Innovation Ltd., promises to offer state-of-the-art water heaters with the best of experience to Indian consumers.

## FIVE INTELLIGENT REASONS FOR ADVANCED THERMAL COMFORT

**EXCLUSIVE O'PRO TECHNOLOGY**  
Provides additional protection to the tank and heating element against corrosion.

**TITANIUM CORE SHIELD**  
Baked to perfection at 850° C to provide superior protection against corrosion.

**OPTIMIZED INLET DIFFUSER**  
Distributes the water gradually and keeps the water temperature equally balanced.

### REINFORCED INSULATION

Injection of liquid foam ensures superior insulation, compact design and retains heat for longer duration. You will never be short of hot water.

### SUPERIOR SAFETY, INGRESS PROTECTION-IP24

Complete protection against water splashes.  
**Immersed Thermostat:** Accurate temperature measurement and instant cut-off. **Safety Valve:** Protects against pressure build-up.

**Cu**

Copper Heating Element

Exclusive O'Pro Technology

## POWERED BY EXCLUSIVE O'PRO TECHNOLOGY

- The Exclusive O'Pro Technology provides additional protection to the tank and heating element against corrosion.

- With the use of an Ohmic resistor, a small resistance is created of 390  $\Omega$  between the Magnesium anode and the Heating Element. As a result of the Ohmic resistance, the life of the water tank is increased by up to 50% and you get fresh, corrosion free hot water for your family, for a longer duration.

# STORAGE WATER HEATERS

## Modern Masterpieces for the Progressive you

Enjoy a soothing hot water bath with our cutting-edge storage water heaters. Not only it's super convenient and easy to use but also it serves individual needs with tech-enabled features.

Available in multiple shapes and sizes to fit into your required spaces by enhancing the look of your washroom.

**Capacities : 10L - 50L**
