## CERTIFICATE OF QUALITY

### USDA ORGANIC

Organic is a labelling term that indicates that the food or other agricultural product has been produced through approved methods. The organic standards describe the specific requirements that must be verified by a USDA-accredited certifying agent before products can be labelled USDA organic.

### ISO 9000

ISO 9000 is a set of international standards on quality management and quality assurance developed to help companies effectively document the quality system elements to be implemented to maintain an efficient quality system.

### APEDA CERTIFICATE

The Agricultural and Processed Food Products Export Development Authority (APEDA) was established by the Government of India under the Agricultural and Processed Food Products Export Development Authority Act passed by the Parliament in December, 1985.

### HALAL CERTIFICATE

Halal food has been prepared according to Islamic law, and is free from pork products, alcohol and certain other ingredients.

### INDIAN ORGANIC CERTIFICATE

India Organic is a certification mark for organically farmed food products manufactured in India. The certification mark certifies that an organic food product conforms to the National Standards for Organic Products established in 2000.

### FDA REGISTERED

Firms exporting products from the United States are often asked by foreign customers or foreign governments to supply a "certificate" for products regulated by the Food and Drug Administration (FDA). A

### GMP

Good Manufacturing Practices (GMP) certification ensures the integrity of your food manufacturing process as well as your compliance with food safety regulations. Assurance of the safety and quality of food is an important consideration for consumers today. A GMP is an important enhancement to your food safety management system, which increases your customers' confidence in your commitment to trading and producing safe, high quality food.

### FSSAI CERTIFICATE

The FSSAI has been established under the Food Safety and Standards Act, 2006 which is a consolidating statute related to food safety and regulation in India.
