## About Us

Established in 2014, Reliable Engineering Services is a trusted manufacturer and supplier of various types of Acoustic Enclosure for Noisy Machines, Noise Barrier and Cable Trays, etc. Our products are designed and developed using advanced technology and modern machinery, in strict compliance with applicable industry standards. Manufactured with quality-tested raw materials, our offerings are known for their efficient performance, durability, and application-specific designs. Available in customized sizes and specifications, our products are widely used across industries such as chemical, pharmaceutical, steel, power, oil & gas, petrochemicals, fertilizers, and automotive engineering. We also market our products under our own brand, Reliable Engineering, to ensure consistent quality and reliability.

Our state-of-the-art manufacturing facility, located in Thane, Maharashtra, India, is equipped with contemporary machinery and upgraded regularly to meet evolving market demands. The infrastructure is systematically divided into functional units, enabling smooth operations and enhanced production capacity. Guided by the leadership of our Proprietor, Mr. Zafar Khan, we have achieved a strong and reputable position in the industry through quality-driven practices and customer-focused solutions.
