

Features

- Integrative structure design, easy installation, agile movement, no need to lay any pipelines.
- Low noise
- Large-power brushless DC fan generates large air flow.
- Triple Filter design, remove hazardous substances from fume to ensure body safety .Pre-filter and main filter can be replaced separately to make full use of filters and cut down cost.
- Built – in air cycling filtering systems, avoid discharging the cool/hot air outside.
- Both air flow and arms are adjustable.

Model	ARO-1002
Static Pressure	2000Pa
Systems Flow	2*150m3/h
Filtering Efficiency	0.3μm99.97%
Power Consumption	200w
Input Volatge	AC110-220V
Noise	<60db
Dimensions	4209(L)*245(W)*400(H)mm
Quantity of Arms	2
Weight	18kg
