

## Desktop Ionizing Air Blower (SL-028)

Great amount of wind, width scope ion annihilator The neutral time is quick, the ion wind cover area is big, has the heating function, is suitable specially for professions and so on printing, electron, plastic. The amount of wind may adjust in the 70-120CFM scope, ionic equilibrium voltage for  $0V \pm 10V$ .

## Feature

1. Dr. Schneider pc SL-028 Ionizing Blower
2. Big Ion gas and wide protective area
3. Quick neutralization of static charge
4. Ion gas volume is adjustable from 70-120CFM.
5. Ion balance voltage: 0V±10V
6. With the heating function
7. Especially apply for Printing, Electronics, and Plastic industry.

<b>Specification:</b>	
Power Supply	DC24V
Current Consumption	60cm×120cm
Air Velocity	45CFM-110CFM
Air Flow Characteristics	30cm*30cm Area Coverage
Operating Temperature	32F-122F
Body Material	Stainless Steel
Surface Finish	Powder Coating
Outer Size	450mm(L) ×220mm(W) ×190mm(H)
Ion Balance(Offset Voltage)	0V+/- 10V
