

# Digital Hot Plates

## General description

Designed to meet laboratory daily heating requirements. Digital temperature controller and aluminum heating surface.

## Main features

- Large heating surface. Fast and uniform heating.
- Microprocessor chip for precise temperature control
- Constant heating and no electromagnetic interference
- Special high resistant coatings prevent corrosion and guarantee long life
- Compact design combined with an elegant look

## Specifications

D1401/E, digital temperature controller and aluminum heating surface.

Temperature range: ambient to 350°C

Temperature stability:  $\pm 5^{\circ}\text{C}$

Heating area: 200x200 mm

Heating power: 2000 W

Dimensions: 200x200x150 mm

Weight approx.: 15 kg
