# About Us

---

Commemorating precision, innovation and perfection, **Oreng India Brass Metal Works Pvt. Ltd.** has been serving as one of the fastest growing manufacturing companies in India since **1991**. Not only is our work renown for its perfection and punctuality, but also for its ethics. We are an **ISO 9001:2015** company and our incessant growth in the past three decades has made us one of the leading **manufacturers** of Precision Turned Components in Brass Metal in the market. Accommodating, customizing and sustainable, we produce brass turned components from a simple design to the most complex configuration. Here at Oreng India, we sustainably and precisely manufacture your ideas. Your dreams and satisfaction are our reality.

Before dispatch we make a self-inspection report (SIR), plating test certificate (PTC) and Raw Material Test Certificate (RMTC) so that the trust of customers can be earned. Our company performs statistical process controlled procedure so that we can deliver the best value of buyers invested money. Our commitment to quality, timely delivery and customer satisfaction has enabled us to unlatch the door of success and survive in the competitive market. Be it selecting raw material or choosing our vendor and logistics associates, we take the utmost care so that we can set the benchmark of excellence.

Depending on the quantity of customers order, we offer discounts and the price that we charge to them is industry-leading. We give our best to the delight of our client as they are important to us because it is for them we are carrying out the production process of our offerings. We promise that we will never break the trust which customers have in us and will always serve them with the best

## Company Profile

---

It was in the year 1991, when our mentor joined his fathers business of manufacturing precision brass components and later, in the year 2009, ventured into opening new manufacturing unit by the name Oreng India Brass Metal Works Pvt. Ltd. in Jamnagar, Gujarat of India. Due to reasonable rates and high quality, our products are heavily demanded in the market and used in various industries.

We are not ruling the heart of Indian customers but international clients also because of our A-grade products, impressive policies, pocket-friendly price structure and many more factors. We are happy that all our customers are satisfied with us and rating us high, which boosts our willpower to perform with the same excellence even more.

## Quality Policy

We, Orenge India Brass Metal Works Pvt. Ltd., are focused on quality and thus, implement the best possible measures to maintain the same. Our entire team is working with dedication and is following all the industry norms that can help us to maintain flawlessness. The entire range is cross-checked by senior experts to ensure products are defect-free and worth supplying to customers. The quality of our products has allowed us to win the heart of customers and has become a major reason of our growth.

## Quality Objectives

The following are some quality objectives of our company that is enabling us to impress our client base and develop a strong bond with them:

- We constantly keep on researching for the ideas that can help us improve the quality of our products.
- We strictly follow a total quality management system and surveillance of all the business operations so that the chances of delivering degraded products can be eliminated.
- We stay updated with the needs of the market and deliver the array with respect to the same.
- We wish to attain and maintain the image of a quality-oriented enterprise in the domestic and global markets.
- We are also focused to improve response time, reduce the rejection rate by 2% every year and increase the turnover by at least 15% every year.

## Our Facilities

Due to the assistance of modern facilities, we are capable of serving customers timely and effectively. We have built our production house in an area of 9000 sq.ft, which is unified with various automatic and semi-automatic machines, special purpose machine (SPM). The installed machines help us in manufacturing, packaging and other processes, thereby, enabling us to deliver a world-class range. We use all types of grades made from brass metals as per customer specifications. It is the backing of these machines that is enabling us to deliver customized array to our clients. We, Orenge India Brass Metal Works Pvt. Ltd., manufacture around 1 million pieces per week that is from 3 mm to 54 mm in size in diameter, and in size in length from 2 mm to 300 mm. Also from us, customers can get products with different plating like Nickel Plating, Brass Plating, Silver Plating, Tin Plating, Lead Plating, Gold Plating, Copper Plating and Chrome Plating.

## Business Opportunity

We are looking for associates who can work with complete dedication and contribute to mutual growth. With the help of our partners, we want to reach a wide customer base and emerge as a big corporate house. Some main points to have a joint venture with us include the following:

- Tie-up for Technology
- The enquiries Sole Selling Agents, Distributorship, etc., of products
- Tie-up for marketing the host country & foreign markets

## Certificates

## Corporates Social Responsibility

Orange India strongly supports ethical and sustainable living.

## Employees

Apart from stringently following all the labour laws, we have taken several steps to assure good health of our workers. An outline has been provided below:

- Primarily, we support the physical well being of our workers. We conduct regular health check-up and provide paid leaves for medical purposes to our employees.
- We also strongly believe in rich mental health and ensure the environment provided to our workers is warm, accepting and motivating at all times. In India, mental health is still a working taboo and we try our best to spread awareness in our company. We recommend counselling to our workers when required and let them know the importance of mental health.
- We also believe in enriching spiritual quotient and encourage our employees to actively participate in spiritual activities like meditation. All our employees have attended the Vipassana course of meditation and regularly practice it. It helps us maintain a very optimistic and energetic work environment.

## Environment

- Apart from following the environmental laws, we take some active steps to play a small part in giving back to our community.
- We follow the golden Rs, Recycle, Reuse and Reduce for our environment.
- We minimize our energy consumption to the maximum and source only renewable energy with the help of solar power.
- We own the latest technology equipped with the sustainable feature of reduced energy consumption.
- We minimize the waste produced and recycle it and convert it into raw material again.
- We conduct regular seminars in our company to raise awareness on the importance of environment for our employees.
