

Wastewater and Sewage Treatment Systems

*"We have not inherited  
the World from our parents,  
We have borrowed it  
from our children"*  
- Aham.

**BIO MICROBICS**  
BETTER WATER. BETTER WORLD.®

# On-Site Sewage Treatment for Water Re-Use

## Disadvantages of Soak pits

Tend to clog

Unhygienic

Pollute Ground water

Waste of water

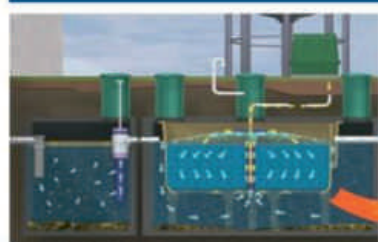

## The **BIO MICROBICS** Advantage...

## **FAST**<sup>®</sup> is Easy!

Easy to Install, Easy to Operate, Easy to Maintain  
Edge over the others....

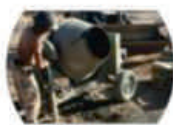

**FAST**<sup>®</sup> Sewage Treatment System

## Re-Use Applications

Landscaping & Gardening

Construction

Cooling Tower Make-up

Boiler Feed

Toilet Flushing

BIOWATER Treatments Systems LLP (BWTS), has a mission focusing on the national need for *decentralised, on-site sewage treatment systems*. BWTS has tied-up with Bio-Microbics Inc. of Kansas, USA, to provide **chemical-free** small to medium sized Sewage Treatment Plants (STPs) for residential, industrial and commercial applications. Bio-Microbics is a world leader in innovative, on-site sewage treatment systems and ancillaries, specialising in STPs that are "Hands Off", **easy to install, easy to operate and easy to maintain**. Our system capacities range from just 600 litres per day to 600,000 litres per day.
