About Us

We at, Aakar Plastic Industries serve Indian customers with premium quality water cooler jars and insulated plastic water jugs that are made from the best quality raw materials and using the latest technology. We began our operation in 2013 in Kishangarh, Rajasthan, and soon we created an impression of a reliable manufacturer and supplier of a wide range of 14 Liter Water Cooler Jug, 12 Liter Blue Water Camper, 12 Liter Plastic Water Camper, Insulated Plastic Water Jug and many more. We direct our efforts on developing innovative products that are primarily led by advanced technology and a keen understanding of sustainable water storage solutions. These products are easy to carry, especially in travelling where people need a safe, leakage free, cooling portable water container. Furthermore, our products feature low-maintenance, light-weight and durability.

For over a decade, we have been successfully serving our customers under the guidance of Mr. Manoj Sharma. Our vision is to shape our business by a culture of entrepreneurship, creativity, research and constant eagerness to innovate. To meet the quality standards laid out by the industry, we have assembled a team of quality analysts which runs various tests on our products. In addition to this, we have also built a digitally supervised warehousing facility that lets us store our products in a safe environment.
