About Us

Founded with a vision to produce the most innovative line of agriculture & food processing machinery, **Universal Process Engineers Pvt. Ltd.** has earned a worldwide recognition in a limited span of time. Incorporated in 1984, we are one of the leading **manufacturers, suppliers and exporters** of high quality Process Equipments and Plant & Machineries for the Starch Industry. We offer a comprehensive range of high quality **germ separator, germ washer, de-watering screen, starch washing system, starch processing machine, coarse grinder, fine grinder double rotating system, fiber washing system** and many other products for our prestigious clients. The company also offers Turnkey assignments, consultancy for the entire plant for erection and commissioning, modernization, expansion of existing plants and trouble shooting.

We are well experienced in manufacturing equipments and machineries not only for Maize Starch but also for Potato, Sweet Potato, Tapioca (Cassava), Jowar, Wheat and Sago. Our company has been supplying equipments, plants and machineries to various starch manufacturing companies; beginning from 50 tonnes per day Maize grinding to as much as 500 tonnes per day. By exploiting our rich technical expertise, we are capable of developing tailor-made plants & machineries as per the specifications and requirements of our clients.

We can also help you to get the most efficient results in terms of production, yield and cost effectiveness. At the commence/starting phase of the project, you can contact us for assistance and we will help you in material balance studies, water utilization, equipment details, providing solution to problems, equipment's lay out, piping layout, erection, etc. High on every aspect of design, efficiency and performance, our products are setting the new standards of quality across the globe. Currently, we are catering to requirements of the clients based in Middle East, European, African and Asian countries.

World Class Quality

Quality remains the primary concern at Universal Process Engineers. Right from the very first day of our inception in 1984, we have maintained a strict quality management system conforming to ISO and other international standards to ensure flawless production. Every task is executed under the strict supervision of our well trained professionals having versatile knowledge in their respective disciplines. The finest grade of raw materials (including S.S. 304, 304L, 316, 316L & other grades) are employed in the process which are sourced directly from authentic agents of the

Strong Technical Setup

We possess an ultra modern facility comprising of the latest cutting edge technologies and well trained manpower to engineer the most advance range of products to our valued clients. Our team comprises of experienced mechanical engineers, chemical engineers and technical personnel having experience of 25 – 30 years in the Starch Industry. Our CAD system produces high quality drawings and eliminates any sort of errors derived from equipment's manufacturing, erection and commissioning. The following is the brief detail of our mechanical strength:

Our Products

Starch Machinery

Starch Plant Manufacturers

Germ Separation System

Maize Wet Milling Grinders

Ddgs Dryer

Pin Mill

Spin Flash Dryer

Flash Dryer

Starch Consultants

Starch Refining Hydrocyclone

Germ Separation Cyclone

Pressure Screen

Screw Press

Starch Processing Equipment

Fine Grinder Double Rotating Mill

Starch Sifter Machine

Pressure Arc Screen

Fine Grinder
