## ZENITH THREE HEAD SEAMLESS WELDING MACHINE

### MACHINE FEATURES

- Zenith Three Head Seamless Welding Machine is used to weld colour UPVC profiles.
- Machine equipped with extra sensor to insure work at set temperature only.
- Digital display insure proper setting of set and achieve temperature.
- Machine PLC and panel is Japanese brand only.
- Machine supplied with Japanese touch screen HMI.
- Machine equipped with Schneider switching with Japanese SMPS.
- Machine is capable to weld at 90° and V weld both.
- Zenith machine is having extra capacity in height to weld bigger profile.
- Zenith machine is having special alarm to ensure safety against any breakdown.

This machine is used for welding and the combination, with programming control and pneumatic driving systems, it has the features of high reliability, large processing range and easy operation, the two heads can work individually, simultaneously and combinative.

### SPECIFICATIONS

Working Pressure	0.4-0.6Mpa
Air Consumption	200L/min
Welding Length	400-3900mm
Welding Profile Height	20~140mm
Outside Dimension	4800*1150*1850mm
Weight	1500 kg

\* We reserve the right's to change the color and design of machines time by time.
