# Life Threatening Emergencies

## CPR, AED And BASIC FIRST AID TRAINING

It has been proved beyond doubt that Bystander Help during a cardiac arrest or any life threatening event is one of the key requirements for the successful revival of a patient. Thousands of lives can be saved across India if corporates, Manufacturing Industries, banks, hotels, Mass Transportation organizations, malls, theatres, educational institutions, colonies and other public places get their staff/occupiers trained in Life Saving Skills with quality CPR and effective use of AED, so that they can handle medical emergencies more effectively. We are on a mission to reach out to mass of people to train and make them capable, confident and prepared to handle any such emergencies and achieve a pride tag of "LIFE SAVER" by saving life of others.

### Duration-3 Hours (Excluding Breaks)

Heart Attack | Cardiac Arrest  
Hands-on CPR  
Hands-on AED Using Trainer's Kit

### Life Saver Training Duration-6 Hours (Excluding Breaks)

Heart Attack | Cardiac Arrest | Hands-on CPR  
Hands-on AED using Trainers Kit | Stroke  
Choking | Breathing Emergencies | Allergy  
Hypoglycemia | Bleeding | Fractures  
Neck & Spinal Injury | Seizure  
Burns | Environmental Emergencies | Poisoning  
Bites | Drowning

## FACULTY, CURRICULUM & STANDARDS

Our core faculties are Well-Experienced & Certified instructors from the National Resuscitation Council of Singapore and American Heart Association. Some of the faculty members are trained in ACLS, BOLS & ITLS as well.

Certification will be provided to participants who successfully pass the Practical Skill Performance and Written Assessment

# PREPARING YOU TO SAVE A **LIFE**

## **CPR**

makes the difference between life and death in an emergency situation. With the right training, you will be ready and confident to save a life!

## Automated External Defibrillators (AEDs)

The ZOLL AED Plus® defibrillator will guide you through the process of performing high-quality CPR and will, if needed, deliver a potentially lifesaving shock to the heart. With a ZOLL AED Plus and quick action, you could help avert tragedy. Integrated, real-time feedback provides visual and audio prompts to "Push Harder" or confirms when you are doing "Good Compressions," keeping you on track to administer potentially life-saving CPR.

### ZOLL AED Plus

- Real CPR Help provides real-time CPR feedback on rate & depth of compression
- Audio prompts & visual icons complements the AHA chain of survival
- Easy to place one piece CPR D Padz electrodes with 4.5 years shelf life
- Rugged with IP 55 rating for dust & water
- Off-the-shelf lithium batteries (Duracell123a) with 5 years life
- 5 years warranty plus 2 years additional warranty (with online registration)
- USFDA & CE

### ZOLL AED 3

- Enhanced Real CPR Help, Full colour display with rescue images
- Large colour bar gauge showing CPR depth
- CPR Uni-padz electrodes that can be used on adult & paediatric patients.
- Rugged with IP 55 rating for dust & water
- Built in WiFi connectivity that can automatically report AED readiness
- 5 years shelf life for batteries & pads
- 5 years warranty plus 2 years additional warranty (with online registration)
- USFDA & CE
- EN1789 certified for ambulance usability

### ZOLL Powerheart G3

- RescueCoach Prompts provide userpaced instructions
- Rescue Ready feature shows status of battery, pads & device
- Electrode pads – 2 years shelf life
- IP rating 24 protects against dust & water
- Non-rechargeable Lithium battery -3.5 years shelf life
- European CE notified body (NON USFDA)

# Automated External Defibrillators (AEDs)

## ZOLL Powerheart G5

- ICPR technology provides real-time CPR feedback as per guidelines
- Fully automatic
- IP 55 rating
- Lithium battery with 4 years shelf life
- Electrode life 2 years
- USFDA & CE
- EN1789 certified for ambulance usability

## CardiAid

- Open lid for operation ( Fully automatic)
- Self-explanatory illuminated symbols
- Alkaline Battery shelf life 2 years
- Electrode shelf life 2 years.
- Optional addon module available for IOT (remote tracking of device)
- IP 55, weight 3 KG.
- CE certified.

## ZOLL AutoPulse

Effective compressions, good blood flow leads to lifesaving CPR

- Mechanical CPR machine
- Designed for Resuscitation on the Move
- AutoPulse Resuscitation System can minimize some of the chaos that surrounds a code, providing a sense of organization and time to think.
- AutoPulse allows EMS professionals to continue providing high-quality chest compressions even in cramped areas.

## Ambulance

Merqui Medica designs, fabricates and equip ambulances. The equipment we use are tested & certified for safety & dependency.

Ambulance is an extension of any emergency department in hospitals and organizations. It is equipped to provide on board treatment to patients for various kinds of emergencies like Cardiac Management, Monitoring Vitals Signs, Intubation, Suction, Splinting of injured limbs, Bleeding control etc.

## Disaster/Survival Kits

Disaster preparedness refers to measures taken to prepare for and reduce the effects of disasters.

That is, to predict and - where possible - prevent disasters, mitigate their impact on vulnerable populations, and respond to and effectively cope with their consequences.

Merquri Medica offers various customized solutions for homes, offices, communities, public places, adventure travel, places of worship & disaster response teams.

The basic disaster preparedness kit contains all necessary items & tools required to sustain an emergency for the initial 24-72 hours.

The users are advised to add personal medication, currency, emergency contact numbers and other specific personal requirements in this kit to make it complete & effective in case you should need to use them. Please also make sure that these are replenished in regular intervals & pray that we don't need to use this kit.

## Emergency Resuscitation Station

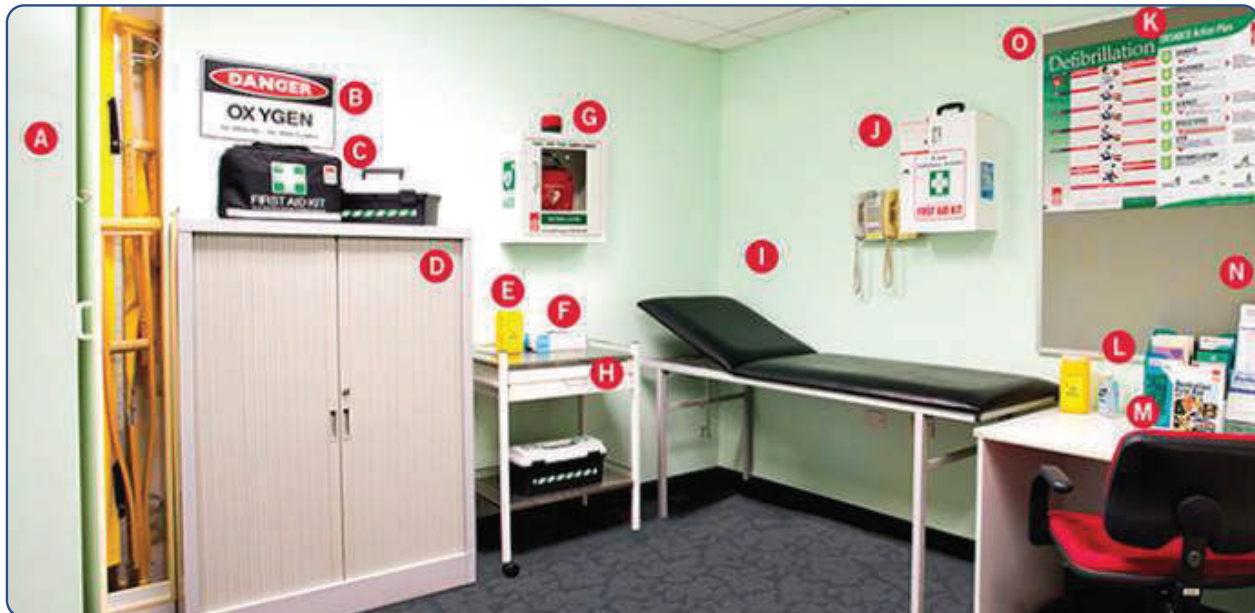

Every minute is precious during a life-threatening emergency. First responder needs all the basic life saving tools handy. This is why, Merquri Medica has designed the Cardiac Emergency Resuscitation Station.

Emergency Resuscitation Station is equipped with an AED, emergency bag with intubation, suction, oxygen cylinder, first aid kit, and a stretcher all packed in the esthetic cabinet.

## First Aid Room

Merquri Medica consults with organizations in designing and implementing first aid stations, medical centers and emergency trauma response centers. These are basic and very important part of any first aid and resuscitation plan for any organization. We have a strong expertise in setting up these centers and training the paramedical staff & ERT personnel to better respond during any medical emergency.
