## About Us

In the year 1996, we, Spray Technics, started our journey as a manufacturer and supplier of a broad and excellent selection of products like Disinfection Tunnel, Sanitizer Dispenser, Sanitizer Dispenser, Sanitizer Panel, etc. Our products are renowned for their perfect durability, service life, and dimensional precision. Our extremely futuristic, cutting-edge infrastructure is equipped with all the tools, machinery, and equipment required to help the company achieve many of its aims and objectives. We have divided our facilities into numerous units, each under the direct supervision of a qualified and experienced manager, in order to best manage the firm's activities.

We have witnessed and experienced varied heights of accomplishment while working under the skilled direction of Mr. Atul Peshawaria. His expertise, foresight into industry trends, and managerial abilities have aided us in our quest for success. Additionally, he shows admirable concern for the happiness of the workers by providing timely raises, incentives, and promotions to the deserving applicants.

## Key Facts

|                                    |                     |
|------------------------------------|---------------------|
| <b>No of Staff</b>                 | 150                 |
| <b>Year of Establishment</b>       | 1996                |
| <b>No of Production Lines</b>      | 1                   |
| <b>OEM Service Provided</b>        | No                  |
| <b>Monthly Production Capacity</b> | More than 20 Plants |
