RITEZONE CHEMCON INDIA LIMITED

(An BIS & ISO 9001-2015 Certified Company)

About us

Rite Zone Chemcon India Limited is a leading provider of construction chemical products and concrete solutions, serving the industry for over 22 years. We deliver a complete range of high-performance products for civil construction, infrastructure, and structural works, covering both pre- and post-construction needs.

Backed by a team of experienced professionals, our focus is on delivering customized, reliable, and innovative solutions. We also offer Ready Mix Concrete (RMC) to meet the evolving demands of modern construction.

Our production is driven by stringent quality controls, supported by a state-of-the-art R&D facility, and adheres to BIS (Bureau of Indian Standards) specifications, ensuring consistency, efficiency, and compliance with international standards.

At Rite Zone Chemcon, we are committed to providing not just products—but solutions that build trust and long-term value.

Our Aim & Goal

Our vision is to be recognized as a global leader and dependable partner in delivering high-performance construction chemical products and concrete solutions. We strive to offer uncompromising quality at highly competitive prices, with a strong focus on building long-term, solution-oriented partnerships. At Rite Zone Chemcon, we believe in delivering solutions, not just products—ensuring consistent quality, technical excellence, responsive service, and on-time delivery across every project we undertake.

RITEZONE CHEMCON INDIA LIMITED

(An BIS & ISO 9001-2015 Certified Company)

Our Motive

“Our Quality and Service Speak for Themselves – We Offer Solutions, Not Just Products.”

Our core objective is to earn the trust and confidence of our customers by consistently delivery high-quality products with reliable and timely service. We aim to empower our clients by providing superior solutions that ensure optimal performance and long-term value.

Our Products

We manufacture a wide range of high-quality construction chemicals, including:*

- ◆ Concrete Admixtures (SNF & PCE based)
- ◆ Waterproofing Solutions
- ◆ Engineering Grouts
- ◆ Curing Compounds & Mould Release Agents
- ◆ Industrial Flooring
- ◆ Concrete Repair Products
- ◆ Tile Adhesives & Block Joiners
- ◆ Surface Treatment

We also cater to the ***Ready-Mix Concrete (RMC)*** sector with tailored admixture solutions to enhance concrete performance and consistency.

Research and Development:

Our advanced R/D lab is equipped with state-of-the-art technology to ensure superior product quality. We follow globally accepted processes and continuously adopt the latest techniques to maintain consistency and performance. Our skilled and dedicated R/D team ensures that all products meet industry standards and deliver long-lasting results across applications. By analysing global market data, we continually innovate to enhance our product offerings.

Our Plant Set-up:

Our manufacturing facility is located in Vapi, Gujarat – a leading chemical hub of India. We have partnered with one of the largest producers of Sulphonated Naphthalene Formaldehyde Condensate to support our production process. The plant spans a large area and currently boasts a production capacity of 20 tons of finished product every 2 hours. As demand continues to grow, we are steadily expanding our capacity to meet market needs.

RiteZone

Built by brilliant minds.

Mr. Bhavesh Bhandari

(Founder And Managing Director)

Mr. Bhavesh Bhandari is a founder member and the Managing Director of RiteZone Chemcon India Ltd. With two decades of experience in the construction chemicals industry, he is known for his strategic thinking, integrity, and commitment to transparent business practices. His passion for innovation and ethical governance has shaped the company's journey from its early days to becoming a publicly listed entity on the NSE.

Mr. Chandrakant Shah

(CEO)

Mr. Chandrakant Shah true visionary and the driving force behind our progress, Mr. Chandrakant Shah brings with him a legacy of perseverance, ethical practices, and trust. As the CEO of Ritezone Chemcon India Ltd, his focus on long-term relationships and uncompromising work ethics continues to guide the company's values, culture, and strategic direction.

Mrs. Arti Bhandari

(Director & CFO)

With over 15 years of experience in management and operations, Arti Bhandari has played a key role in strengthening the company's governance, financial planning, and compliance. Over the past three years, her strategic leadership has been vital to scaling operations and driving sustainable growth.

Mr. Siddharth Arun Banerjee

(Director)

Mr. Siddharth Arun Banerjee DIRECTOR | Sales & Marketing Expert - Construction & Infrastructure Siddharth Arun Banerjee, DIRECTOR of Rite Zone Chemicals India Pvt. Ltd., brings over 30 years of experience in Sales and Marketing across the construction and infrastructure sectors. With a strong academic background and extensive expertise in government projects, he is known for his strategic approach, market insight, and proven leadership in driving business growth.

OUR PRODUCT RANGE

CONCRETE ADMIXTURES

RITE FLUID SP 151M (SNF Based)
High water reducing Super Plasticizer for Concrete

RITE PLAST WR (SNF Based)
Water Reducer plasticizer for Concrete

RITE FLUID RP 101
Retarding water reducing Admixture

RITE OPTIMA PC 340 LM
Polycarboxylate based Concrete Plasticizer for Concrete

ORITE OPTIMA PC - HG
PC based Admixture for High Grade Concrete M60 and Above

RITE OPTIMA PC-700 SCC
PC based Admixture for SCC (Self Compacting Concrete)

OUR PRODUCT RANGE

CONCRETE ADMIXTURES

RITE ZONE WL

Integral Waterproofing Admixture for Concrete & Mortar

RITE AIRENT

Air entraining cum water reducer admixture

RITE SHOT ACF

Chloride free Accelerating admixture with plasticizing action

RITE FINISH 4016 SR

Concrete Surface Retarder

BSK OPTIMA PC - ES

PC based Admixture for Early Strength Concrete

RITE INHIBITOR

Corrosion inhibitors substances added to the Mix concrete to prevent or slow down the corrosion

OUR PRODUCT RANGE

WATERPROOFING SYSTEMS

RITE SEAL WP 601

Acrylic reinforced Cementitious, flexible waterproof coating (High Capacity)

RITE GUARD PWC

Polymer Modified Cementitious Waterproofing coating

RITE CRYSTA GUARD

Crystalline water proofing powder

CONCRETE REPAIRS CUM WATERPROOFING

RITE BOND PROOF

Polymer Modifier Styrene Acrylic Latex for Cementitious systems (To provide water resistance to the concrete & bonding agent + waterproofing)

OUR PRODUCT RANGE

CONCRETE LUBRICATOR /PUMPING AID

RITEPUTZ LUB

Lubricator for Concrete Pumps, Hoses and Pipe Lines

MICROFIBERS FOR CONCRETE REINFORCEMENT

Microfibers are synthetic fibers added to concrete to enhance its strength and durability. They help reduce plastic shrinkage cracks, improve toughness, and control surface cracking

OUR PRODUCT RANGE

CURING COMPOUND FOR CONCRETE

RITE CURE CC

Silicate based Concrete Curing Compound

RITE CURE WB

Wax based Concrete Curing Compound

RITE CURE RB

Resin based Concrete Curing Compound

MOULD RELEASE AGENTS cum PROTECTIVE COATING

RELEASE XL

Emulsified Mould Release Chemical

RELEASE SPL

Oil based ready to use shutter release agent with non staining properties

RITE RUST CONVERTER PB

Epoxy base rust remover Anti rust as well as Rust Converter bondinga

OUR PRODUCT RANGE

ENGINEERING GROUTS

RITE GRT FNS

free flowing non shrink high strength cementitious grout

RITE GRT PER

Ultra High strength Pourable Epoxy Resin Grout

RITE GRT ER- H

Low Viscosity liquid based on Epoxy Resin with blended Hardner

RITE GRT INJ

Inj is blend of plasticizer admixture & expansion agent with filler

TILING PRODUCTS

RITE TILE HD

Polymer modified ready to use waterproof ceramic tile adhesive

RITE MARBLE HD

Polymer modified ready to use waterproof Marble adhesive

RITE BLOCK HD

Polymer modified ready to use waterproof Blocks adhesive

OUR PRODUCT RANGE

Concrete

Slump Concrete

Concrete mix slumps were maintained within specified tolerances across all grades, from M-7.5 to M-60, ensuring consistent work ability and quality throughout delivery.

Free Flow Flowable Concrete

Free-flow or flowable concrete is a highly workable, self-leveling mix that flows easily into form work without the need for vibration.

Self Compacting Concrete

Self-compacting concrete (SCC) is a highly flowable concrete that spreads and compacts under its own weight without the need for mechanical vibration.

Early Strength Concrete

Early strength concrete is specially designed to gain high compressive strength within a short period, enabling faster construction and early form work removal.

OUR PRODUCT RANGE

Concrete

PQC Concrete (For Roads and Highways)

PQC (Pavement Quality Concrete) is a high-strength, durable concrete specifically designed for rigid pavements in roads and highways, offering long service life and minimal maintenance.

Shot Crete Concrete

Shotcrete is a method of applying concrete or mortar by spraying it at high velocity onto surfaces, commonly used for curved or complex structures like tunnels, retaining walls, and swimming pools.

Ultra-High Performance Concrete (UHPC)

is an advanced, high-strength, and highly durable concrete with superior mechanical properties and enhanced durability, used in demanding structural applications like bridges, precast elements, and architectural components.

Stamp Concrete

Stamped concrete is decorative concrete that is patterned, textured, or embossed to resemble brick, stone, tile, wood, or other surfaces, offering an aesthetic and durable finish for floors and pavement
