# What is **ClO<sub>2</sub>Gel** ?

A proprietary formulation for generating ClO<sub>2</sub> in a Gel form. ClO<sub>2</sub> by its inherent nature needs to be produced at site only. With the new formulation and the technical Know how – the period of release for ClO<sub>2</sub> is increased upto 25-30 days. With a continuous effective release the benefits of ClO<sub>2</sub> are easily accessible and can be utilized in a user friendly manner.

**ClO<sub>2</sub>Gel is not a masking agent. It does not mask the odor like other fragrances.**

## How does it work ?

It has a controlled release of ClO<sub>2</sub>. The slow regulated released of ClO<sub>2</sub> gas is undetectable and is safe level at per the OSHA toxicity values. ClO<sub>2</sub> is an Oxidizing biocide, it deactivates micro organisms by attacking and penetrating their cell wall, disrupting the transport of nutrients across the cell wall and inhibiting protein synthesis. Since this action occurs regardless of the metabolic state of the organism, oxidizing biocides are effective against dormant organisms and spores.

# Applications for CLOGel

## Benifits and Advantages of

# CIOGel<sup>2</sup>

**Eliminates Virus,  
Bacteria & Odour**

### ChemicalMolecular Advantages -

- Broad Spectrum Molecule Approved by - WHO, US EPA, CDC and other global certification bodies.
- Powerful oxidising agent and free radical with residual disinfection capacity.
- Very short contact time ( 2-10 min).
- No resistance building by microorganisms.
- Effective in gas phase.

### Economical Advantages -

- No Investment in plant and Machinery.
- Slow and regulated release of CIO<sub>2</sub> effective for prevention of airborne contamination.
- One pack sufficient for 1000 ft<sup>3</sup>( 100 square feet)
- Green and eco friendly molecule which can be washed post usage.
- Refill pack, the only recurring expense.

### Other Non tangible Advantages -

- Reduced Smoke and Food related smell and odor.
- Reduced the odour of Mold and Fishy smell.
- Reduced liquor and other beverage odor.

# DIRECTIONS FOR USE:

Pour the content of  
**CloGel** Sachet  
into the  
container.

2

Fill Container  
with 100 ml  
of water.

1

3

Cover the container  
with the cap and wait for  
30 mins till  
gel turns  
yellow.  
And it will  
be ready  
to use.  
[Do not  
shake]

4

Gas released  
can be increased  
or decreased  
by rotating  
the lid.

**This gel remains  
active for upto 25-30 days once activated.**

# Storage

Store in a cool and dry place.  
Keep away from heat and sunlight.

# Composition

**Sodium Chlorite - 30%,  
Sodium Bicarbonate - 20%,  
Binders, Excipients, etc.**

# Precautions

- An intense odour will be perceived when the lid is rotated for the first time to open and release the activated gas. This is normal.
- Intensity of this odour can be regulated by adjusting the openings on the lid and by opening the windows for ventilation if necessary.
- On contact of powder or gel with skin rinse immediately and thoroughly with water.
- This product is not intended to treat any kind of allergies.
- Keep out of reach of children.
- Do not ingest.
