Packaging, Samples & Shipping

The Wooden Spatula is carefully packed for secure transit, helping ensure pristine condition upon arrival. Quick dispatch and express shipping options are available for prompt replenishment. Samples are available on request for distributors, resellers, and bulk buyers seeking to evaluate product quality before placing larger orders. Competitive rates and professional packaging support reliable supply from source to site.

A: Use the disposable Wooden Spatula to apply wax in smooth, even strokes for uniform coverage. Discard after each session to support hygienic single-use application and help prevent cross-contamination.

Q: What makes this Wooden Spatula different from others?

A: It is crafted from premium beech wood with a natural, smooth finish and flat head, providing comfortable handling, precise control, and a hygienic waxing process.

Q: Where is the Wooden Spatula manufactured and supplied from?

A: The product is proudly made in India and supplied by a manufacturer and supplier specializing in quality spa and salon products.

Q: When can I expect my order to arrive after purchase?

A: Orders are processed promptly, with quick dispatch and express shipping options available. Actual delivery time may vary based on destination and selected shipping method.

Q: What is the sample policy for bulk buyers or resellers?

A: Samples are available on request, allowing potential distributors and bulk buyers to evaluate product quality before placing larger orders.

Q: Is the spatula suitable for professional use in salons and spas?

A: Yes. Its lightweight, smooth, disposable design makes it suitable for professional salons, spas, clinics, and other waxing environments.
