MOTOR**

## About Us

Bisu Transmission has been servicing customers with entire focus and dedication for over 15 years. 3 Three Phase Helical Geared Motor, Industrial Inline Helical Gearbox, Crompton Greaves Three Phase Motor, and a wide range of other products are supplied by our company. These goods are praised for their longevity and safety features. All of our products are composed of high-quality materials that ensure their unrivalled performance. Although our array is world-class, we offer it at market-leading costs for the convenience of our customers. Because of its extensive industrial experience, our organisation is trusted for the exclusive solutions we provide as well as our dependable services.

Our attentive personnel attend to our customers, understanding their demands and meeting them to perfection. One of the reasons for our huge success is the presence of educated and skilled employees. Our staff have worked in a variety of groups, including procurement, quality testing, warehousing, and delivery. We have established ourselves as a reputable trader as a result of their dedication. Similar efforts are required from them in the future in order for our organisation to achieve the top spot in this field. By the support of Mr. Hiren Patel (Manager), the company is growing each day and soon will acquire the summit of this domain.

All of our products, such as the Industrial Inline Helical Gearbox, 3 Three Phase Helical Geared Motor, etc. are thoroughly tested before being delivered. There is a separate facility on our grounds that is equipped with sophisticated machines and equipment. Our professionals can completely inspect the aspects of products thanks to the facilities. Only once quality controllers have authorised the creations are they shipped to buyers. Any defective product is returned to the production line. We do not send any poor shipments since we follow a strict quality management system.
