About Us

Vishal Oleochem, based in Palghar, Maharashtra, is a trusted trader, supplier, manufacturer, and exporter of high quality industrial and specialty chemicals. Established in 2001, we are a family owned partnership firm with over 24 years of experience serving diverse industries across India and overseas. Our core offerings include Industrial Wax, Stearic Acid, Cosmetic Chemicals, Glycerol Monostearate, Potassium Carbonate and a wide range of other chemical products tailored to meet specific industrial needs. Headquartered in Palghar with our registered office in Mumbai, we operate from a strong foundation of a large, well equipped warehouse and a professionally managed setup. Our facility is supported by all necessary infrastructure and a team of well trained, educated staff dedicated to ensuring timely delivery, consistent quality, and excellent customer service. This robust operational base enables us to efficiently manage trading, manufacturing, and export activities for clients in sectors such as cosmetics, pharmaceuticals, food, textiles, and more.

A key strength of Vishal Oleochem is our in house R&D centre, which drives innovation and product development. Leveraging our expertise, we continuously develop new and emerging chemical solutions aligned with evolving market demands, suitable for both research and large scale manufacturing. With a customer centric approach, deep technical knowledge, and a commitment to reliability, we have built a reputation as a dependable one stop partner for industrial and specialty chemicals.
