**DC POWER CONNECTORS**

## About Us

V K Electronics & Co. is leading the way in the market for high-quality electric connectors. We were established in 2016 and are one of the most powerful forces among our peers. Today, we hold a position among the top manufacturers, suppliers, traders, importers, and exporters. We have been able to reach this position because of our consistent hard work, focus on the quality of products, and ethical trade practices. We are proud of our commitment to providing quality connectors that accurately and reliably connect with various electronic devices and systems to develop electrical connections between the components. Our diversity of products includes DC Power Connectors, Molex Alternative Connector, Molex 12 Circuit Connector, Molex 8-Pin Black Connector and so on. Forged with strict control and according to the standards of the industry, our connectors are channels for all aspects of the electronic world.

VK Electronics & Co. is one of the most celebrated companies, catering to market demands for several types of electrical connectors. We handle different job responsibilities as a manufacturer, trader, importer, and exporter to meet market demands with our wide variety of items in our portfolio. We are experts at supplying Pitch Connector, Molex 8-Pin Black Connector, Molex Alternative Connector, DC Power Connectors, and many other products. These products are widely praised in the market and are a result of our excellence in the domain. We have a strong shipment network, which connects us to various locations across the world. Taking advantage of our connections and network, we timely procure and deliver orders to customers in various parts of the world. We perform all the business operations from our New Delhi, India-based setup and make dispatches from this location.

**Key Facts**

<b>Nature of Business</b>	Distributor
<b>Primary Competitive Advantages</b>	medical connectors,sfp optical transceiver,fiber optic connectors,cables,Networking connector,board to board connector,wire to wire connector,Termianl Blocks,Card to Board Connector,pcb terminal block
<b>No of Staff</b>	11
<b>Year of Establishment</b>	2016
<b>OEM Service Provided</b>	No
<b>ProductRange</b>	medical connectors,sfp optical transceiver,fiber optic connectors,cables,Networking connector,board to board connector,wire to wire connector,Termianl Blocks,Card to Board Connector,pcb terminal block
