

## LAXMI INDUSTRIAL PRODUCTS

### ABOUT THE LEADERSHIP TEAM

*Mr. K. Laxman Rao, Group Chairman, is a dynamic entrepreneur in plastics and various marketing enterprises. He started his career in 1988 in a small way, and since he has continuously achieved new peaks in business.*

## EPE FOAM SHEETS MANUFACTURING

We offer a wide variety of EPE Foam Sheets for use in numerous industries. These sheets can be availed in different thicknesses depending on the nature of material to be packaged. We offer these sheets in diverse forms such as perforated, non-perforated and anti-static.

These sheets are highly versatile, crack or tear resistant and have smooth texture. Apart from standard white color, these sheets can be availed in customized colors too. Our EPE Foam Sheets are made in strict accordance with the domain standards.

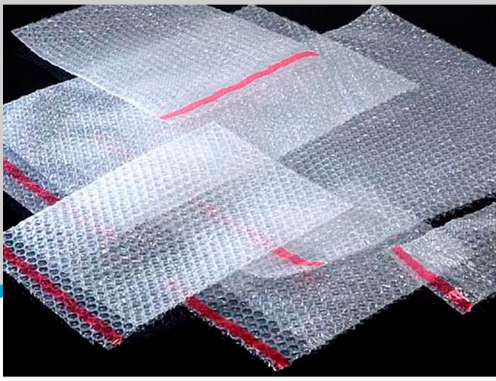

## STRETCH FILM

Stretch film is a plastic film used to secure, bundle, and stabilize products. Stretch film is made from linear low-density polyethylene. When applying the film is to be pulled and stretched around products to obtain tight and secured product loads. Stretch film comes in a variety of widths, thicknesses, and colors.

We offer multiple varieties of stretch film to choose from in a wide array of widths and thicknesses. All of our stretch wrap film is made from virgin material ensuring the highest quality possible. We can produce stretch film in any colour, as per Customer requirement

## AIR BUBBLE MANUFACTURING

We are premium suppliers and manufacturers of best quality laminated three layer Air Bubble Rolls and Sheets which are used for packaging of various products.

These are available in a roll form in varying lengths, sizes, colours and prints and can also be customized as per the application requirements of the customers.

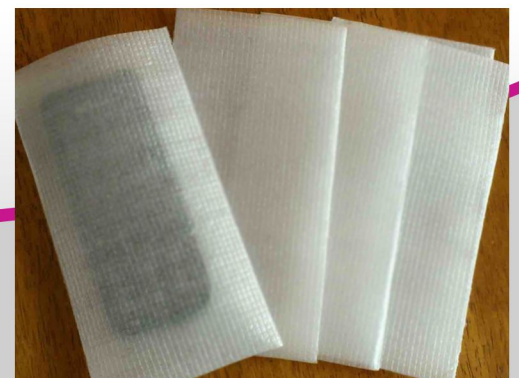

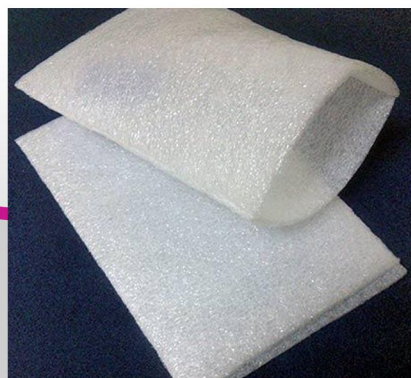

We endeavour to offer quality products to suit the specific requirements of our clients.

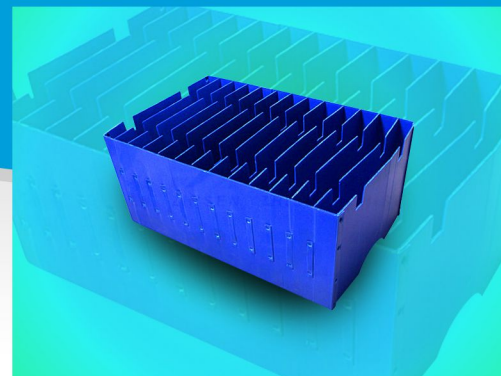

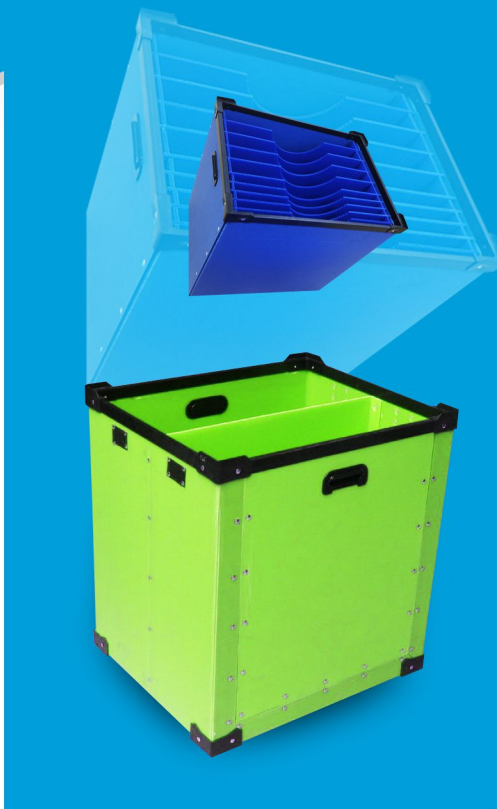

## EPE FOAM POUCHES

We are regarded as an eminent manufacturer, supplier, trader, distributor and wholesaler of EPE Foam . The product that we are offering is used for packing various electronic products and other valuable items, ensuring protection from any kind of damages.

Capitalizing on our more than one decade of industrial exposure, we have been affianced to manufacture, export and supply EPE Foam. This foam is generally considered ideal for the heat and sound insulation of different kinds of surfaces due to its excellent thermal and acoustic insulation properties

## PLASTIC CORRUGATED BINS

Our in-depth expertise helps us in manufacturing a wide array of Plastic Corrugated Bins which is also known as Plastic Corrugated Crates' it can be partitioned with Polypropylene corrugated separators / partitions to stack inside multiple quantities of various products such as Automobile components and other Molded Parts. Furthermore, the bins can be put in with protective cushioning of E.P. Foams for protecting the delicate products which are stacked inside safely. We can fully customize these in respect of shapes, sizes, colors, and designs. We also manufacture Conductive / ESD Polypropylene Bins for Electronics industry etc., which are in Black color, as standard.
