About Us

We, J. K. Analytical Laboratory & Research Centre, are amongst those certified firms that are engaged in rendering various kinds of quality tests on different products. The wide ambit of services we provide includes Beverage Testing Services, Alcoholic Beverage Testing Services, Beverage Assays Testing, Alcohol Testing, ASTM Testing, Deformation Extraneous Materials Testing, Acid Number Testing, Durability Testing, Performance Testing and many more. We embarked our business journey as a Service Provider in this domain a year back, i.e in 2014.

We are well aware that both packed and unpacked food/ beverages in confectionery shops, bakery, restaurants, hotels can be contaminated by different micro-organisms like yeast, bacteria, fungi etc., and thus causing severe diseases if consumed by humans. So, we perform quality test on these products to examine their quality and to know if they are free from adulteration, toxicity and good to consume. The testing guidelines vary for each product and accordingly we perform the tests. We have gained many customers from various sectors, who testify their products from us.

Operating from a prime location in Gujarat, India, we, J. K. Analytical Laboratory & Research Centre, laid the foundation stone of our company in the year 2014. We are reckoned amongst our clients as a reliable Service Provider offering a wide spectrum of testing services. From Beverage Assays Testing, Deformation Extraneous Materials Testing, ASTM Testing, Alcohol Testing to Durability Testing, we deal in a large variety of services. The services we render are executed as per the the guidelines laid by different regulatory bodies and authorities. Our team has the capability to undertake even the most difficult challenges with ease.
