## Online PH Indicator with Sensor

### DESCRIPTION OF THE PRODUCT

Digital pH meter is a precise and compact pH Monitoring System using solid state devices for direct measurement of pH. It is basically a Voltage measuring device With added features' The high input impedance and the , Stability Of Measuring circuit enable it to make the Chemical Measurement

## FEATURES

- measuring the acidity or alkalinity of liquids
- Resolution: 0.01pH.
- Compact & Light Weight.
- pH meter is highly accurate.

## Application

Chemical industries, Pharmaceuticals, Paint industries. Food industries, Breweries industries. Sugar Fertilizers industries. Textile industries. Effluent Treatment plant, Sewage Treatment Plant, RO water Plant

## Specification

Make	USIS
Type	Panel
Range	0 to 14pH
Calibration	2 points
Input	pH Electrode
Accuracy	0.1 pH
Resolution	0.01pH
Display	3 ½ RED LED
Dimension	96x96x85mm
Power Supply	230 VAC, 1Phase. / 24VDC
