About Us

Our company, Indian Rubber & Hydraulics Co., is one of a kind. Since our incorporation back in 2011, we have been focusing all of our efforts towards maximizing the profits of clients who choose to deal with us. We regularly offer them with a superior quality assortment of pipes, fittings and more at prices that are extremely budget friendly. Under the brand name, REPHIN, we make available bulk quantities of 5 inch Hose Pipes, Hydraulic Gates Hoses, Flexible LPG Hoses, High Pressure Hose Fittings, etc., for clients. Our company promises to only bring forth products that adhere to the international standards of quality and design.

Following the lead of our mentors, Mr. Anil Chauhan & Mr. Sunil Chauhan, we aim to become the top manufacturer and exporter of the segments we deal in. The mentors of the company motivate us to constantly work in an honest manner, while ensuring the safety and comfort of clients. This is the reason, we always remain fair to clients and safeguard their interest by working in an ethical manner.

Quality Assurance

Clients look for a product that meets their quality expectations perfectly. The intense search for the best hydraulic and industrial products in the market always ends at our company. We are one of the most reliable and quality conscious manufacturing experts. Every day, we bring forth best quality High Pressure Hose Fittings, 5 inch Hose Pipes, etc. Each of the items comply seamlessly with the latest industrial standards. The quality of our range is always assured by our recruited team of talented quality auditors. They confirm that each and every batch is defect free. The design accuracy, high quality, durability and seamless finish of our robust range is assured by the expert team. Our experts make sure that only perfect products leave our facility.

Our USPs

Our enterprise is a cherished name of the hydraulic and other industrial segments, renowned for exceptional business capabilities and marvelous product portfolio. Some other factors that have become the biggest selling points of our company in the competitive marketplace are as follows:

- ✿ Our fair & ethical business practices
- ✿ The water proof packaging of our range
