# About Us

In 2024, we, Infinite GIS Services, started our business. We are a respectable company that is sincerely fulfilling the requirements of customers for top quality Industrial Salt. With high focus on the quality, we carry out daily trade responsibilities to deliver high quality salts.

Our offered salt is extensively praised among customers for its purity, hygiene, longer shelf life, moisture-free nature, and many other attributes. We supply it to customers in sealed, air-tight packs that retain the genuine quality attributes till the end use.

Infinite GIS Services is a prominent company, known for manufacturing high quality Industrial Salt. We have our modern unit in Sambhar, Rajasthan, India, where we handle our trade duties to smoothly supply salt in any quantity as per the market demands.

We are pillared by a cutting-edge infrastructure, where we have maintained arrangements for smoothly processing, quality checking, packing, and handling all the business tasks. Our setup is capacious and handled by a talented workforce to make us attain high business growth and success.

## Quality Promise

The quality we supply creates a buzz in the market and brings interest of a large number of customers to the company. The supreme quality of our salt is not accidental but the result of our planned processes and strict measures. We maintain complete control over the quality, we conduct tests and after surety we make dispatches of orders.
