PREMIUM WELLNESS ADVANTAGE & APPLICATIONS

Versatile Application: Perfect for luxury personal homes, commercial spas, star hotels, athletic centers, and wellness institutes. Designed for effortless operation — simply plug in, set your preferences on the touch panel, and experience rapid warm-up, low-noise infrared sessions with light therapy.

FREQUENTLY ASKED QUESTIONS (FAQS)

Q: How is the 6X4.5 Feet Blizz Spectra Sauna Room installed?

A: The sauna room is prefabricated for simple and hassle-free assembly. On-site installation services are available upon request for both residential and commercial projects.

Q: What are the primary health and operational benefits?

A: Key advantages include rapid heat-up times, superior heat retention via multi-layer insulation, low power consumption, zero EMF emissions, integrated red light therapy, and full spectrum infrared coverage.

Q: Where can this sauna room be installed?

A: It is ideal for indoor placement in private homes, luxury apartments, boutique spas, fitness clubs, resorts, and wellness clinics requiring a dedicated 8x8 sq. ft. area.

Q: What electrical setup is required?

A: It requires a standard Single-Phase 230V, 20 Amp power plug point backed by 4 mm sq. copper electrical wiring.

Q: How do order delivery and supply capabilities work?

A: Orders are processed promptly with FOB shipments out of major Indian ports. Custom tailored pricing is available for institutional or bulk B2B procurement requirements.
