

CUSTOM SAUNA ROOM

Premium Custom Sauna Room • Multifunctional Relaxation Retreat

Experience the supreme relaxation of a custom-built sauna room, crafted from select American pine wood. Featuring solid wood benches with an anti-slip design, the sauna is finished with an eco-friendly protective oil for lasting beauty and durability. Choose a tempered-glass single or double door, an innovative digital control panel for interior or exterior placement, and ambient LED lighting. Adjustable ventilation, intuitive automation, and adaptable capacity for 1–10 persons make this sauna suitable for residential and commercial wellness environments.

Key Features

- Select American pine wood construction
- Solid wood benches with anti-slip design
- 8 mm safety tempered glass door options
- Single or double door configuration
- Digital control panel – interior or exterior installation
- Ambient LED lighting
- Adjustable ventilation system
- Intuitive automation controls
- Custom capacity from 1 to 10 persons
- Eco-friendly protective oil surface finish
- Floor-standing or built-in installation options
- Suitable for indoor dry sauna applications

Multifunctional Relaxation Retreat

Our custom sauna room is designed for personal relaxation, spa therapy, and wellness-center use. Its flexible design allows installation in homes, clubs, hotels, private spas, and health facilities. Floor-standing and built-in configurations provide installation flexibility, while self-contained digital controls simplify operation.

Designed for dry sauna applications, it supports relaxation, stress relief, rejuvenation, and wellness routines. The plant-based, eco-friendly surface finish complements indoor spas, relaxation rooms, and holistic wellness environments.

Applications

- Home wellness and relaxation rooms
- Hotels and resorts
- Spas and wellness centers
- Health and fitness clubs
- Private therapy and relaxation spaces
- Commercial wellness facilities

Seamless Supply, Quality Standards & Global Reach

Each sauna can be supplied flat-packed in reinforced wooden cases for secure transportation. The units are manufactured with a focus on safety, durability, and eco-friendly materials. Custom sauna rooms can be supplied for spas, hotels, wellness centers, clubs, and residential projects across India, subject to order specifications and delivery requirements.

Frequently Asked Questions

Q: How does the installation process work?

A: The sauna room can arrive flat-packed and is designed for straightforward assembly with clear instructions. It can be configured as either a floor-standing or built-in unit, depending on the available indoor space.

Q: What materials are used in constructing the custom sauna room?

A: The standard construction uses high-quality American pine wood, 8 mm safety tempered glass, solid wood benches, and an eco-friendly protective oil finish.

Q: Where is the ideal location to install this sauna room?

A: It is designed for indoor applications such as home wellness rooms, private spas, hotels, health clubs, and other suitable wellness spaces. Dimensions and utilities can be customized to the project.

Q: What are the main benefits of the digital control system?

A: The digital control system can be installed inside or outside the sauna and provides convenient control of operating settings, lighting, ventilation, and automation features.

Q: What customization options are available?

A: Dimensions, wood species, door type, bench layout, color finish, control-panel features, heater type, lighting, and other design elements can be customized to suit the installation.
