

## Industrial Conveyor

Customer faith well-kept for lifetime.

180 Degree Roller Conveyor, 90 Degree Belt Conveyor, 90 Degree Industrial Conveyor, Aluminium Profile Conveyor, Automatic Truck Loader Conveyor, Batch Heating Oven, Candy Metal Detector, Cap Cooling System, Case Packer Machine, Case Weigher Machine, Check Weigher Machine, Confectionery Metal Detector, Continuous Microwave Dryer, Conveyor Belt Jointing Machine, Conveyorized Ovens, etc.

**OVERHEAD TROLLEY CONVEYOR**

**SLAT CHAIN CONVEYOR**

**HORIZONTAL ROLLER CONVEYOR**

## About Us

Since 2010, Hi-Tech Machineries is a trusted manufacturer, trader and supplier of high-performance industrial equipment. Based in Thane, Maharashtra, our company is driven by a passion for precision engineering and technological innovation. We offer advanced solutions that help industries enhance productivity and maintain high operational standards. Our product line includes Industrial Conveyor, Gravity Feed Metal Detector, Overband Magnetic Separator, Rotary Drum Dryer and Batch Heating Oven, tailored to meet specific manufacturing needs. Every machine manufactured by us is built under strict quality control protocols. With over a decade of experience, we understand the complex demands of industrial environments and provide robust, reliable, and maintenance-friendly systems. Our in-house experts work closely with clients to deliver products that meet exact technical specifications and performance expectations.

Innovation is at the core of our operations. We continuously invest in research and development to enhance product performance and energy efficiency. By staying ahead of technological trends, we ensure our clients receive machines that are not only reliable but also aligned with the future of industrial automation. Our equipment is trusted by businesses across sectors including food processing, manufacturing, recycling, chemicals, and more. Whether its a small enterprise or a large-scale operation, we provide scalable machinery solutions designed to improve throughput and reduce downtime. Our versatile product range allows us to cater to both standard and specialized requirements with equal precision.
