

## REFRIGERATED AIR DRYER

YOUR PARTNER IN ALL RIGHT CHOICES

Chiller Water Pipeline, Compressed Air Pipeline, Cooling Tower Pipeline, Heatless Air Dryer, Oil Flooded Rotary Screw Compressor, Oil Free Scroll Compressor, Reciprocating Compressor, Refrigerated Air Dryer, Water Injected Screw Compressor, etc.

**PIPING SYSTEM FOR VACUUM AND  
INERT GASES**

**ALUMINIUM ALLOY PIPING SYSTEM  
FOR COMPRESSED AIR**

**INDUSTRIAL ALUMINUM PIPELINE**

## About Us

Founded in 2015, Maxon Engineering is one of the most trusted traders and suppliers in the industry, fulfilling the needs of a wide customer base for flawlessly developed Air Receiver Tanks, Refrigerated Type Air Dryers, Industrial Aluminum Pipelines, Rotary Screw Air Compressors, and other products. We are well-known for the impeccable quality of our products, transparent business dealings, and timely completion of orders. With excellence in business and a strong will to deliver complete customer satisfaction, we promise to keep up with our remarkable services. We promise to never disappoint our customers and instead always keep up with their expectations.

Our goal is to serve industries with the best pneumatic components possible that are affordable, long-lasting, and efficient. We strive to exceed customer expectations by supplying products that meet the highest standards of performance and quality, as well as by offering outstanding customer service. Our mission is to become the industry leader in pneumatic solutions that accelerate development and improve the standard of living for our customers and the communities we serve. Our fundamental principles and strategic objectives serve as the foundation for our mission: always striving for excellence in every endeavor we work on.
