## About Us

Under the innovative leadership of Mr. Dharmendra Shah, Progreen Sports Infra has evolved as a prominent manufacturer, supplier, and trader in the sports infrastructure business. Since its inception in 2009, the firm has been actively creating the landscape of modern sports surfaces from its headquarter in Mumbai, Maharashtra, India. We are extremely proud of our dedication to quality and innovation at our manufacturing plant.

Our devoted team of 50 trained individuals works relentlessly to offer cutting-edge solutions that fulfill our respected clients' unique demands. We recognize the critical role that high-quality sports surfaces play in improving athletic performance and reducing injury risk. As a result, our product line is engineered to deliver superior durability, performance, and safety. The Commercial Office Artificial Turf is one of our most popular products, as it blends aesthetic appeal with utility, making it great for a variety of business locations. We also specialize in creating Tennis Artificial Turf that matches the feel and performance of natural grass, providing players with an amazing gaming experience. We provide a complete choice of sports flooring solutions, including Acrylic Sports Flooring and PVC Sports Flooring. These surfaces are designed to endure extensive use, providing athletes' optimal comfort and performance. Furthermore, we have 25mm Landscape Grass, 13mm Artificial Turf for Cricket and Multisports, Silica Sand, Rubber Granules, Eco Yellow Interlocking Tiles, Mercier Blue Interlocking Tiles, and much more in our product catalogue.
