

# TECHNICAL SYSTEM

Your partner for cutting-edge industrial automation and control.

## COMPANY OVERVIEW

# Who We Are

Technical System, established in 2023 in Indore, Madhya Pradesh, India, is a leading provider of comprehensive industrial automation solutions. We are dedicated to serving the manufacturing industry with integrity and delivering best-in-class service.

## OUR EXPERTISE

# Advanced Sensor Technology

### Proximity & Photoelectric

Reliable detection for diverse industrial environments.

### Environmental Sensors

Accurate measurement of pressure, temperature, humidity, and dew point.

### Lidar & Safety Curtain

Precision scanning and robust safety integration.

### Specialized & Ultrasonic

RTD, thermocouple, and ultrasonic solutions for specific needs.

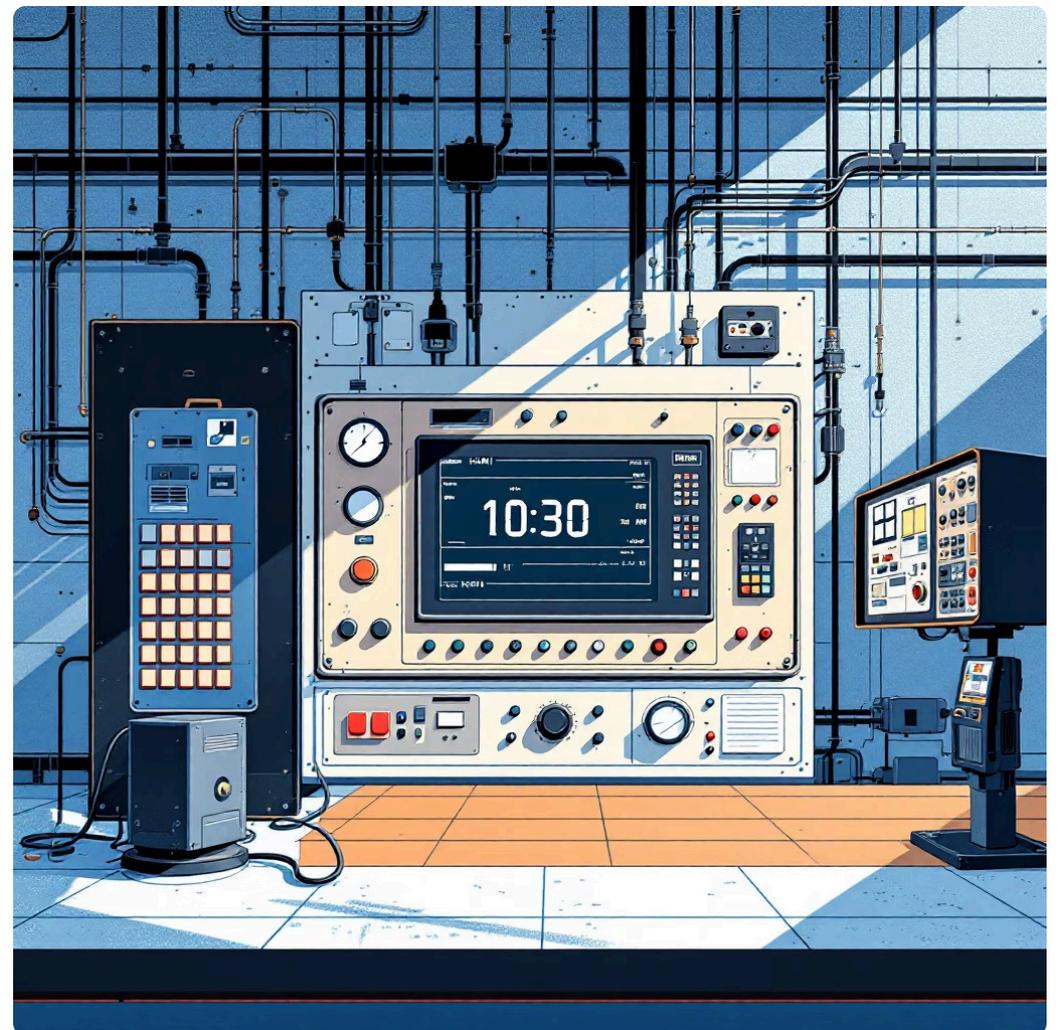

## OUR EXPERTISE

# Comprehensive Controls & Instruments

We provide a full suite of control systems and instrumentation to optimize your operations:

- Encoders, Counters, Timers
- Indicators, HMIs (Human-Machine Interfaces)
- VFDs (Variable Frequency Drives), Motor Starters

- Stepper & Servo Motors
- Relays, SMPS (Switched-Mode Power Supplies)
- Terminal Blocks, Panel Meters, Remote I/O

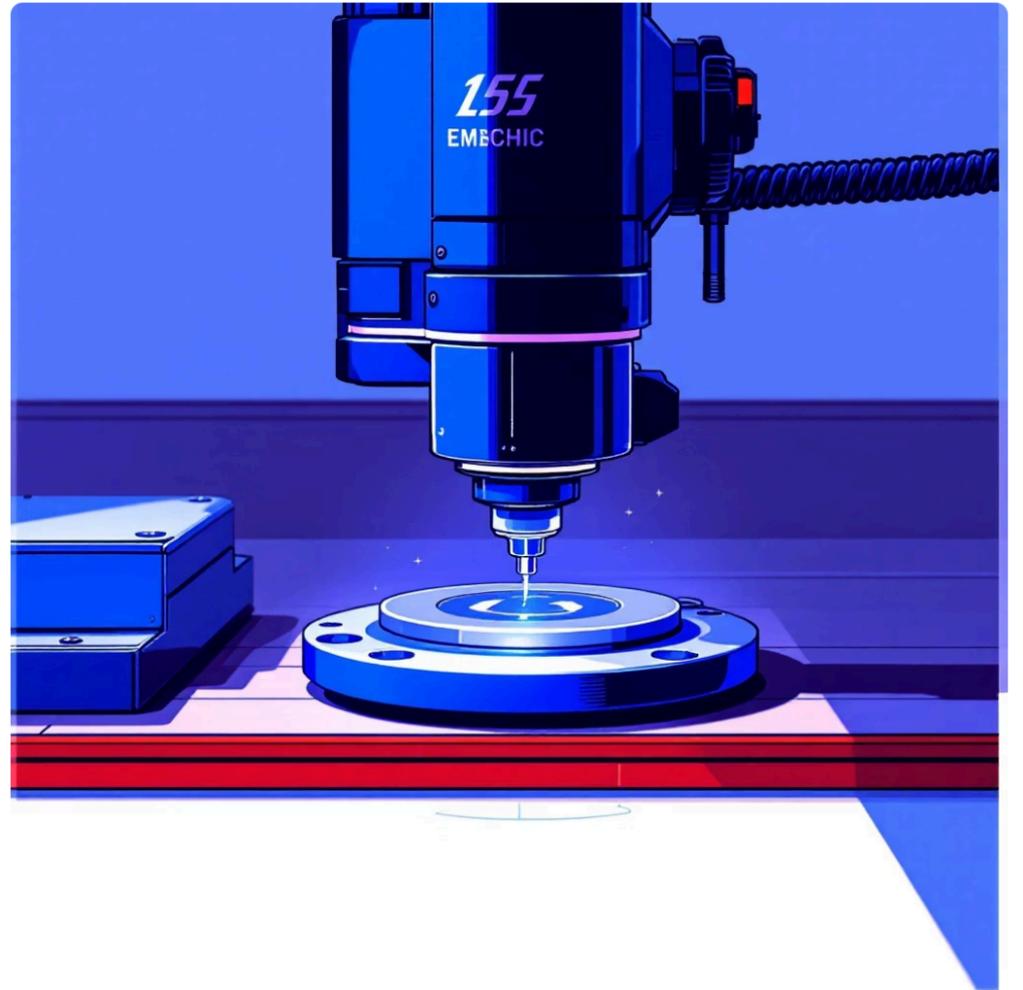

## OUR EXPERTISE

# Specialized Industrial Solutions

## Laser Marking Machines

High-precision laser marking machines for permanent and intricate identification on various materials. Enhance traceability and product branding with advanced laser technology.

## IIoT Solutions

Leverage the power of the Industrial Internet of Things (IIoT) to transform your manufacturing processes. Our solutions enable real-time data collection, predictive maintenance, and operational efficiency.

## OUR EXPERTISE

# Professional Repair Services with One Year Warranty

We offer comprehensive repair services for a wide range of industrial components, backed by a **one-year warranty** for your peace of mind and continued operational efficiency.

### VFD

Expert repair of Variable Frequency Drives to optimize motor control and energy efficiency.

### PLC

Comprehensive repair services for Programmable Logic Controllers, restoring automation functionality.

### Servo Motor

Precision repair and calibration for servo motors, crucial for accurate motion control.

### LED Lights

Repair and maintenance for industrial LED lighting systems, ensuring optimal illumination and longevity.

### HMI

Troubleshooting and repair for Human-Machine Interfaces, ensuring seamless operator interaction.

### Inverter

Specialized repair for industrial inverters, guaranteeing reliable power conversion.

### Controller

Diagnostic and repair services for various industrial controllers, maintaining system command.

## PARTNERSHIPS

# Trusted Brands, Unmatched Quality

We partner with industry-leading brands to ensure the highest quality and reliability of our products and solutions.

Autonics

ABB

E+E

WATLOW  
Eurotherm.

CastNX

Telemecanique

SIEMENS

CARLO GAVAZZI

## OUR COMMITMENT

# Why Choose Technical System?

### **Integrity First**

Operating with transparency and ethical business practices.

### **Best-in-Class Service**

Dedicated to customer satisfaction and support.

### **Expert Team**

Experienced professionals delivering tailored solutions.
