About Us

We, Jyoti Magnet, have been an ISO 9001:2008 certified manufacturer, supplier, and exporter offering a variety of high-quality products such as Drawer Magnet, Funnel Magnet, Suspension Magnet, Suspension Magnet, Industrial Gyro Screen Machine, Stainless Steel Vibro Screen Machine, etc. From inception, we have always pleased customers due to the low maintenance cost and modern designs of our magnet separators, which have also earned us a reputation in the market. The suspension magnets we offer are specifically designed for precisely separating the occasional tramp iron from a stream of the product being carried on a vibratory or conveyor belt. Our magnetic grills, owing to their high intensity and gradient magnetic power, find a use for trapping rods, bolts, nuts, etc. These are also used in or below hoppers, floor openings, closed chutes, and catch bins.

We have employed advanced machines and adroit individuals who, with the use of best-grade material in our facility, make the magnets as per industrial standards. By staying regularly updated with the new techniques of production, we have excellent productivity and the ability to meet all the requirements of the clients for magnets of modern designs and specifications. We are able to maintain long-term relationships with our customers due to our fair trade practises and regular supply of reliable products. Knowing that these magnetic machines are a one-time investment, we ensure to offer our clients products that are superb in performance, excellent in their working speed, and durable.
