About Us

Capitalizing on our years of experience in the market, we, Om Automation, have emerged as one of the most trusted traders and suppliers of networking and electronic communication products. Some of the remarkable products in our range include Teltonika Ethernet And Wireless Router, Teltonika Rail Switch, Teltonika Automotive Poe Plus Switch, Teltonika Unmanaged Industrial Switch, and Teltonika Unmanaged Switch. We also have Belden brand cables. These brands are known for ultimate quality products for cabling work, establishing networks, and communication channels.

We procure the products from highly trusted companies who have proven their mettle in the industry. These companies follow an elaborate quality assurance policy to ensure high product standards. Our mentor, Mr. Vinay Kataria, has established good business terms with the companies for regular procurement of the products. Under his dynamic leadership, we are successfully scaling new heights in the industry. The credit for our consistent growth goes to the team which comprises highly talented professionals. They work in complete harmony of interests to achieve the short-term objective and long-term goals of our enterprise.
