About Us

Established under the name Filmtech Coatings, and later known as Pacemaker Pharmachem, our organization has evolved through a structured constitutional process to become what it is today: Pacemaker Pharmachema dynamic, rapidly growing company dedicated to the manufacture of specialized pharmaceutical excipients. Today, we have become a major manufacturer and supplier of effective Tablet Coating Powder and Pharmaceutical Excipients. We are among the few of our kind in the region, offering a state-of-the-art manufacturing facility approved by the State FDCA, specifically designed to cater to the stringent needs of the pharmaceutical industry. Our plant is fully equipped to meet all legal and regulatory requirements of our pharmaceutical clients.

Currently, we are expanding our capabilities with a comprehensive Quality Control Laboratory and Formulation & Development (F&D) Facility, enabling us to offer value-added services to support product innovation and development for our esteemed customers.
