About Us

Based on our more than three decades of long market presence coupled with rich reservoir of domain knowledge, we **Rolltech Engineering Pvt. Ltd.**, are the preferred **manufacturer, exporter** and **supplier** of a wide range of **Rolling Mill Plants & Steel Rolling Mill Plant**. Incorporated in 1980, we have gained excellence in delivering a wide range of Repeaters, **Twisting Machine, Rotary Flying Shear, Cassette Mounted Roller Guide Box and Mill Stand**. We design and develop our products keeping the different requirements and specifications of our clients in mind by utilizing best available technology. We possess sound manufacturing and testing facilities to develop value added products known for easy installation, precise construction, corrosion resistance and durability. Further, we have a large distribution network to ensure that the clients are benefited with the timely delivery of their orders. We focus on regular supply of our products in the markets of Uganda, Sudan, Riyadh, Ethiopia, Djibouti and Arcadia. Owing to our qualitative approach and transparency in business dealings, we are a registered member of Indo-Arab Chamber of Commerce & Industries, Indo-African Chamber of Commerce & Industries and Engineering Export Promotion Council.

We have a glorious track record of delivering an extensive gamut of Rolling Mill Plants. We are counted among prominent manufacturers, exporters and suppliers of these products. We deal in all types of Plate Bending Machine, Repeaters, Twisting Machine, Rotary Flying Shear, Cassette Mounted Roller Guide Box and Mill Stand.
