## About Us

Nothing is more important than protecting your critical electronic programmable equipment, IT infrastructure, and networking systems. SV Electronics delivers reliable and efficient Uninterruptible Power Supply (UPS) solutions to keep your operations running seamlessly during power interruptions, voltage fluctuations, and power quality disturbances. Established in 2010 in Nashik, SV Electronics is a leading manufacturer of its own SV brand products and an authorized sales and service partner for globally recognized brands such as APC by Schneider Electric, Vertiv (formerly Emerson), Socomec, Fuji Electric, Exide Industries, EnerSys (EnerRocket Batteries), AR Power, and BPE.

We specialize in comprehensive service and support for DB / Vertiv-Emerson / Socomec & APC Schneider Electric UPS systems ranging from 1 KVA to 1000 KVA. With a strong PAN India presence and 24x7 support, SV Electronics is a trusted name in UPS sales, servicing, and power quality solutions across India.
