

# YDK Series Large Frame Type Hydraulic Press

The YDK Series Large Frame Type Hydraulic Press is designed for heavy-duty industrial applications including metal forming, deep drawing, stamping, and compression molding. Built with a strong welded steel frame and advanced hydraulic technology, this machine ensures high precision, stable performance, low noise operation, and long service life.

Specification	Details
Product Name	YDK Series Large Frame Type Hydraulic Press
Machine Type	Frame Type Hydraulic Press
Capacity Range	1000 KN – 30000 KN
Working Pressure	Up to 40 MPa
Motor Power	5.5 KW – 45 KW
Control System	PLC / Automatic
Application	Metal Forming, Deep Drawing, Compression, Stamping
Material Processing	Steel, Aluminum, Copper, Hardware Components
Automation Grade	Semi Automatic / Fully Automatic
