

**WELDING POSITIONERS**

**ROBOTIC WELDING SYSTEMS**

**INDUSTRIAL ROTATOR**

2TON Welding Positioners, Air Receiver Tank Welding, Battery Operated Trolley, CNC Drilling System, CNC Plasma Cum Oxyfuel Plate Cutting, CNC Strip Cutting Machine, Chain Rotator For Beams, Column And Boom Manipulator, Conventional Rotators, Conveyor Roller Welding Automation, Conveyor Roller Welding System, Industrial Rotator, Linear TIG Welding SPM, PEB Welding Automation Machine, Plus Beam Welding Automation System, etc.

**BATTERY OPERATED TROLLEY**

**PULL THROUGH WELDING MACHINE**

**PULL THROUGH WELDING  
AUTOMATION SYSTEMS**

## About Us

Future Automation Technologies is a leading provider of welding automation solutions. We began our operation as a reliable manufacturer, supplier, and trader of Automated Welding Special Purpose Machines (SPM) for the automobile, pump, scaffolding, heavy engineering, valve, and allied industries. We established the company in 2003 and have been catering to clients across India. We have also been running automobile pump parts production plants for the past 20 years, with support of our skilled and knowledgeable professionals and in-house designing (CAD) and manufacturing plants.

We offer a diverse range of products such as Conventional Rotators, Robotic Welding Systems, Plus Beam Welding Automation Systems, Battery Operated Trolley, etc. that have a variety of industrial applications in Automobile Parts, Valve Components, and other areas. Our range, which is made from high-quality raw materials including stainless steel, mild steel, and others, is in high demand around the world. Our products are praised in the market for their excellent durability, high efficiency, less maintenance, low power consumption, etc.

## Key Facts

<b>Nature of Business</b>	Manufacturer
<b>No of Staff</b>	30
<b>Year of Establishment</b>	2003
<b>OEM Service Provided</b>	No

## Our Products

**CNC Plasma Cum Oxyfuel Plate Cutting**

**Plus Beam Welding Automation System**

**Industrial Rotator**

**Conventional Rotators**

**CNC Drilling System**

**Chain Rotator For Beams**

**Vessel Rotator**

**Robotic Welding Systems**

**Linear TIG Welding SPM**

**Column And Boom Manipulator**

**Spring Can Welding Machine**

**CNC Strip Cutting Machine**

**Conveyor Roller Welding Automation**

**Conveyor Roller Welding System**

**PEB Welding Automation Machine**

**TIG Welding Automation**
