JKShree Wall Putty

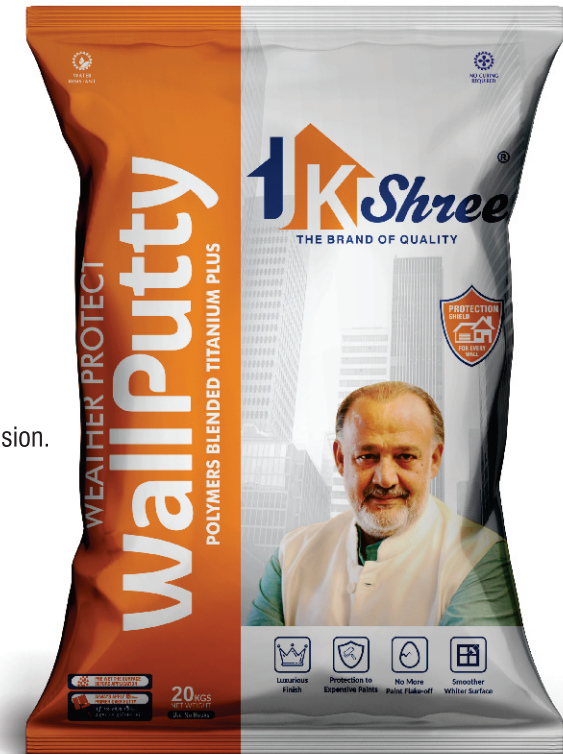

Interior & Exterior

JK Shree Weather Protect Wall Putty is a specially designed product, manufactured with a new “Low dust technology” which makes a dramatic reduction in airborne dust, create during pouring and mixing of putty without changing on rough plasters to give a smoother finish & stronger adhesion. It is best suited to minimize paint cost and extend it’s durability. It protects your expensive paint and retain its beauty for long. It reduces repainting frequency, thus delivering a better life time value as advanced manufacturing process makes it better than other wall putty due to its better water resistance, work ability, smoothness and durability Being pure white and smooth, it brings out the true tone/shade of expensive Emulsion applied over it.

JK Shree Wallputty is a white cement based products with re- dispersible polymer and functional additives for application on exterior & interior rough plasters to give a smooth finish.

FEATURES

- Anti Fungal
- Smooth Finish
- Smooth Finish
- Long Lasting

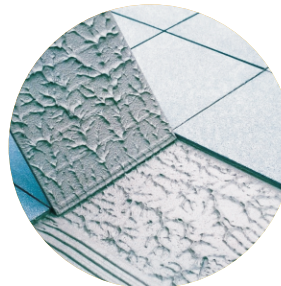

JKShree Tile Adhesive

Interior & Exterior

Tile Adhesive is a Blended Powder polymer modified cement based Tile Adhesive specially designed for heavy duty and stone application on internal & external Vertical surface. This highly flexible Adhesive has an excellent water proofing ability also Tile Adhesive is suitable for Fixing Ceramic, Glaze, Natural Stone etc. on a new substrate.

FEATURES

- Excellent Adhesion and Low Shrinkage
- Design for Internal and External Application
- Water Resistant, Flexible
- Excellent Coverage
- Accommodate Thermal and Physical Movement
- Single Component Mix with Water Only.

JKShree Universal Stainer

Interior & Exterior

Stainers are high strength, concentrated products which can be used to give a wide range of exclusive shades. These stainers can tint Emulsions, Enamels and Distempers. They can be used for air drying glossy or matt finish paints for interiors and exteriors. However, they are not recommended for Epoxy, Chlorinated Rubber and allied paints. These are available in a range of twelve attractive colours. Shades prepared from stainers Fast Yellow, Fast Yellow Green, Fast Red and Fast Violet are liable to show shade variation on exteriors.

FEATURES

- Stainers should not be used for tinting exterior products.
- Do not to add more than 5% Stainer for tinting purpose.
