About Us

Established in the year 1964, Sekar Engineering Works is a well-known manufacturer, supplier, trader, retailer, and wholesaler of a vast range of ladders, barrows, trolleys and carts. Our product line is extensively popular, it includes Aluminum Scaffolding Ladder, Single Gas Cylinder Trolley, Monkey Ladder, Oil Tank Platform Ladder, Gangway Ladder, House Hold Ladder, Platform Trolley With Tray, Sand Loading Wheel Barrow, and many other goods. These are manufactured and supplied from our robust manufacturing unit located in Chennai, Tamil Nadu, India.

Our products are manufactured using the best quality aluminium extrusion with a bolted and riveted fabrication and many other materials. We supply all kinds of ladders, barrows and material handling trolley from portable to fixed, which have deeply serrated flat treads for better grips. We are following the highest quality standards of the industry and are proud to achieve many accolades because of it. We offer an extensive portfolio of bespoke products that we have built over the past 50 years. Our products are regularly supplied to many big industries such as the nuclear industry, aeronautical industry, and nationally based public and private enterprises.
