About Us

Venus Enterprise is an active manufacturer, supplier, trader, and service provider of high performance rubber and polymer manufactures to suit the needs of modern industries. The company is based on intense technical know-how and a devotion to quality, and aims at developing engineering solutions to guarantee high sealing, vibration suppression, and high operational reliability in the long term. Each of the components is created to endure wear and abrasion, oils and chemicals, and the harsh pressure environment of industrial and automotive service. Profound knowledge of polyurethane, silicone, nitrile, PTFE, and innovative plastic compounds will help us to design products that will remain elastic and maintain a constant dimensional stability even during varying temperatures. Since custom molded parts can be made as well as standardized parts, all the solutions can be traced to careful design consideration, easy surface finishing, and high load bearing capacity with effective shock absorbing properties. Corrosion resistant formulations also extend the life span of the product, besides reducing the maintenance demands by end users.

An ability to custom mold facilitates customization to varied design specifications and industry guidelines. Our high-end production and the strong support in service provision provide us with components that form a complex assembly with high performance and minimal friction. The basis of operations is reliability, durability, and consistent operation of Venus Enterprise, which would make it a reliable business partner to the industries that require precision-engineered rubber and plastic solutions.

Key Facts

No of Staff	5
Year of Establishment	2008
OEM Service Provided	No

Our Products

Red Fibre Washer

Control Panel Membrane Keypad

Silicone Rubber O Ring

Rubber O Ring

Neoprene Rubber Washer

PCB Based Membrane Keypad

Lpg Cylinder O Ring Inserter

Epdm Rubber O Rings

Ptfte Teflon Washer

Hybrid Membrane Keyboard

Fire Hydrant Coupling Ring Washer

Industrial Rubber Bush

Polyurethane Washer

Nitrile Rubber O Ring

Fire Rubber Line Hose

Silicon Rubber Washer
