About Us

Shri Manjunatha Industries is a prominent manufacturer and supplier of quality lighting and infrastructure products. We deal with a variety of poles, such as MS Square Street Light Poles, Square Street Light Poles, GI Light Octagonal Poles, High Mast Pole, High Mast Lighting Poles, and so on. We produce our products with precision to ensure durability, strength, and long-lasting performance in any climate. We are dedicated to fulfilling the wide-ranging requirements of our customers by offering dependable, affordable solutions for urban and rural lighting solutions. Due to the highest level of quality provided by our products, we have established a deep presence in the market. In order to guarantee an optimum range of products, we further check the whole range of products to be dealt with on multiple parameters and thus provide a defect-free range to the customers. Also, since they have very high uses and demands in the industry, we provide them to our customers at affordable prices. We provide excellent products within the hypothesized time frame.

We at Shri Manjunatha Industries adopt the latest technology and implement very high standards of quality control, so that every product we deliver is at international standards. Our commitment to quality, customer delight, and punctual delivery has made us a reliable partner for the industry. For street lights, highways, or industries, Shri Manjunatha Industries provides the best solution for your lighting infrastructure requirement.
