## About Us

Your search for Industrial Reactors and allied Electronic Instruments ends at Laxmi Electronics, which has been an emerging name since inception in 2012. The company is a reliable manufacturer and supplier of a wide range encompassing Air Core, Capacitor Bank, Harmonic Filter Reactors, Parallel Reactors, Split Reactors, L.T. Reactors, etc. These are made available in various specifications and grades that fulfill clients expectations as per their requirements. Our team of experienced engineers, technocrats, quality inspectors and other professionals makes use of finest quality metals and ultra-modern production facilities to design our offered products. Additionally, they comply with the standards of ISO 9001:2008 certification and ensure supply of only highest grade products for the retention of our clients.

Located at a town of Maharashtra (India), we, Laxmi Electronics, have emerged as a trusted Reactors manufacturer and supplier, since our recent inception. We are offering a wide range encompassing Neutral Earthing Reactors, Filter Reactors, Iron Core Reactors, Capacitor Bank, Starting Reactors, Specially Series Reactors, etc. These are available in various grades and specifications as per the demands of clients. Making use of highest grade raw materials and cutting-edge technologies, we deliver a range that features precision engineering, robust designs, efficiency, durability and higher performance. We ensure optimum packaging, reasonable pricing and time-bound deliveries which provide complete satisfaction to the clients and help us retain them for repeated orders.

## Key Facts

<b>Nature of Business</b>	Manufacturer
<b>Primary Competitive Advantages</b>	MANUFACTURING OF AIR CORE DRY TYPE H.T & L.T REACTORS AND DESIGN AND SUPPLY OF CAPACITOR BANKS.
<b>No of Staff</b>	10
<b>Year of Establishment</b>	2012
<b>No of Production Lines</b>	1
<b>OEM Service Provided</b>	Yes
<b>Monthly Production Capacity</b>	as per client requarment
<b>Product Range</b>	MANUFACTURING OF AIR CORE DRY TYPE H.T & L.T REACTORS AND DESIGN AND SUPPLY OF CAPACITOR BANKS.
