

## 12V/24V DC 40LPM Diesel Fuel Transfer Pump(HIS-FTP-DC-40LPM)

### Specifications:-

#### **Specifications**

12v/24V oil pump, is designed to transfer diesel oil from drums and tanks.

#### **12v/24V Oil pump Description**

It is indispensable wherever diesel oil must be transferred or handled from drums and tanks. It is also suitable for bio diesel, Kerosene and vegetable oil. It is applicable to be in farms, construction sites, oil warehouse, field-working vehicles, industries and private home.

***This pump should not be used for petrol, flammable or low flash point liquids !!!***

## Features

**Self-priming, rotary electric vane pumps for the transfer of diesel fuel equipped with by-pass valve**

**Pump Body: Cast-iron (Treated against corrosion and paint-finished)**

**Low power consumption**

**Liquid temperature: Up to 35°C**

***Dry-running of pump shall be prohibited***

**Compact size - easy to install, operation and maintenance**

**Safety and reliability**

## Specifications:-

- ❖ Rated Power: 200W
- ❖ Voltage: 12V/24V
- ❖ Max.Pump rate: 40L/min
- ❖ Self-priming height: 3 mtr
- ❖ Thread size: 3/4" or 20mm
- ❖ Pipe size will fit : 1" flexible.
- ❖ No Load Speed: 4500r/min
- ❖ Lift Distance : 3-6 mtr
- ❖ Speed Range : 3300 r/min
- ❖ Cable Length: 2m
- ❖ Size : 19 x 11 x16 cms
- ❖ Weight approx : 4kg
