About Us

Air Magnet Engineers is a 2006-established company fulfilling the job roles of a trader, supplier, and service provider. We offer an extensive range of air conditioning solutions. Our product portfolio encompasses Air Conditioner Units, Basement Ventilation Systems, Bluestar Ductable AC Units, Inverter Ducted Systems, and more. All our products distinguish themselves in terms of quality. Because they are obtained from renowned brands in the market and extensively tested by our professionals, they prove to be worthy. We take pride in the fact that the money our customers invest in us never goes to waste.

For their investment, our customers receive the best products and experiences. Just like high-quality products, our customers enjoy the reliable services we render as well. Our offered AC Repair Services, AC Ducting Services, AC Installation Services, and more are performed only by professionals skilled in them. Each service is carried out within the committed time frame without causing any damage to the surroundings.
