About Us

Stainless steel is considered as the most impressive raw material for making a wide variety of products, from furniture, to hospital equipment and many more. It is so because higher grade steel like 304, possess high resistance to corrosion, chloride bearing environment, functionality even at elevated temperatures and pleasing appearance. Stainless steel products are brought forward by many companies but not all products manufactured by them are well-designed and have excellent surface finishing. A wide variety of Stainless Steel products that Om Enterprise is involved in offering are sure to have excellent surface finishing and seamless design.

Serving since 2005 as a Manufacturer and Supplier of Stretcher Trolley, Hospital Furniture, Patient Stretcher Trolley, Stainless Steel Racks, Stainless Steel Hospital Furniture, Commercial Kitchen Equipment, SS Delux Scrub Station, with a plethora of other products, we have grown successfully. It is our unbendable commitment to innovation, development and quality that helped us create our distinct position in the market. Our offerings are result of an excellent combination of talent of our skillful employees and quality of stainless and mild steel used. Mr. Sanjay Khandagale (Partner) is the promoter of this company who has been working hard to lead in the list of reckoned stainless steel product makers. Our future plan is to expand business and we are planning to achieve this by focusing on quality production and innovation.
