

PVC BRAIDED WATER HOSE

PVC BRAIDED WATER HOSE(CODE : BGH)

INCH	MM	APRX.WEIGHT	METERS
1/2"	12	4.200 KGS	30.000
3/4"	20	6.200 KGS	30.000
1"	25	9.000 KGS	30.000
1-1/4"	32	15.000 KGS	30.000

Structure:

- Specialized Virgin Material
- Cristal Clear shining and Smooth finishing.

Application :

- Water hose is superior quality pressure rating.
- Mainly use of water supply to Irrigation, Gardening and cleaning.

PVC BRAIDED WATER HOSE (CODE : ABH)

INCH	MM	APRX. WEIGHT	METERS
1/2"	12	4.200 KGS	30.000
3/4"	20	6.200 KGS	30.000
1"	25	9.100 KGS	30.000
1-1/4"	32	15.000 KGS	30.000

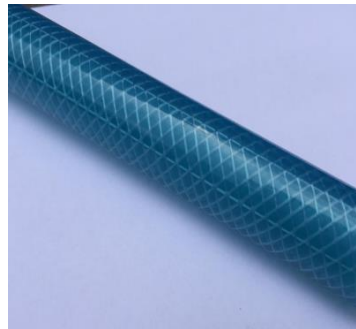

Advantage :

- **Very light in weight hence low migration property.**
- Longer shell life.
- Highly meets the International standard of Quality.
- Leak Proof and Durable Quality

PVC BRAIDED WATER HOSE (EXTRA HEAVY)

BETTAR USE FOR CONSTRUCTION

INCH	MM	APRX. WEIGHT	METERS
3/4"	20	8 TO 8.500	30.000
1"	25	12 TO 15	30.000

Other Colors:

- Available also in other colors.
- Please ask the company for minimum quantity.

TIRUPATI
POLYFLEX

Structure:

- Specialized virgin Material
Cristal Clear Shining and
Smooth finishing.

Application:

- Braided Air Hose offers higher
pressure capability than PVC
Tubing.
- Its Mirror smooth interior
allows constant flow of Water
& Air without any obstacles.

Advantage :

- Very light in weight hence low
migration property.
- longer shell life.

- Highly meets the International
standard of Quality.
- leak Proof and Durable Quality.

Other Colors:

- Available also in other colors.
- Please ask the company for
minimum quantity.

- Recommended Maximum
working Temperature 55/60 C0

- Special size or coil length request
tobe satisfied upon agreement
with Tirupati Polyflex.

- All Technical data available are
subject to modification without
prior notice.

TIRUPATI
POLYFLEX

Structure:

- Specialized Virgin Material
Cristal Clear shining and
smooth finishing.

Application :

- Welding Hose meets various
requirements of clients like,
Welding, Cutting and bonding.
- Also useful for Industrial
workshops, Ship breaking other
service station and Garage.
- Recommended Maximum
working temperature 65/70 C0

Structure:

- Specialized Virgin Material
Cristal Clear Shining and
smooth finishing

Application :

- Mostly useful in Vehicle
service Station.

Other Colors:

- Available also in other colors.
- Please ask the company for
minimum quantity requirements
and pricing.
- Special size or coil length request
tobe satisfied upon agreement
with Tirupati Polyflex.
- All Technical data available are
subject to modification without
prior notice.
