FIP-S6-TGW

Flatbed Illusion Printing Machine

Technical Specification

Model/Type: Digital Flatbed Printer
Print resolution: Per dot (.) 8 Pixels
Printer Size: 24" Wide Format
Ink Technology: Lexy Ink
Printing Cost: Rs.5/- Per Sq.Ft
Production Cost: Rs.65/- Per Sq.Ft
Productive Capacity: 300 Sq.Ft Per Day
Resistance: Water, Thinner, Scratch and Acid proof
Processing Time: Immediate Delivery.
Type of Cartridge: Ink Cartridges
Colours: CMYK

Max. Size
2ft. x 6ft.

Input format: Compatible with all type of format - Recommended format PSD.
Software: RIP software is required
Safety: Non Hazardous Chemicals
UV: UV lamp not required
Head Life: Head will be maintained even if it's idol for long period
Maintenance: Zero Maintenance (18 to 30 Degree Room Temperature)
Usage: User Friendly
Software Used: Raster System
Energy: Energy Saver for Printer
Electricity: III Phase Power Supply

Features

- ✓ Easily deal with print material surface
- ✓ Mounted with advanced Epson print head
- ✓ Especially for materials with height difference and curves
- ✓ High resolution printing with 8 pixel per dot
- ✓ Easy installation on the client location
- ✓ Technology Training by industry experts
- ✓ Prompt service support
- ✓ Zero Maintenance

Application areas: Wall & Floor Decoration
industry, furniture industry, Glass industry,
Ceramic industry; personalized products etc.

* Model and color of the machine can be vary at the time of delivery

* GST @18% is applicable
