

SLOTTED WEIGHT MASSES

Slotted Weight Masses are precision-engineered masses used in laboratories and educational institutions for various experiments involving force, mass, and balance. The slotted design allows easy stacking on rods or hooks, ensuring stability and convenience.

KEY FEATURES

Slotted Design

Easy to slide onto rods or hooks for convenient use in experiments.

Precision Made

Manufactured with accurate weight and balance for reliable results.

Durable Construction

Made from high-quality cast iron with rust-resistant coating.

Variety of Masses

Available in different weight combinations to suit various laboratory needs.

Wide Application

Ideal for physics experiments, educational use, and research laboratories.

RELIABLE. ACCURATE. DURABLE.

Engineered for precision experiments and long-lasting performance.

SPECIFICATIONS

Product Name	Slotted Weight Masses
Material	Cast Iron
Finish	Black Powder Coated
Design	Slotted with Hook
Weight Type	Stackable
Weight Range	Available in various combinations (As per requirement)
Usage	For experiments in physics laboratories and educational institutions
Features	Corrosion resistant, durable, accurate mass, easy to handle
Compliance	Suitable for academic and laboratory standards

ESEL INTERNATIONAL
AN ISO 9001:2015 CERTIFIED CO.

62 Azad Nagar, Near Rampur Chowk;
Behind Khalsa Tent House,
Ambala Cantt, Haryana, 133001 India
