

ANALYTICAL WEIGHT BOXES

Precision. Accuracy. Reliability.

PRODUCT OVERVIEW

Analytical Weight Boxes are precision instruments designed for accurate mass calibration and measurement in laboratories. These weight sets are manufactured from high-quality, corrosion-resistant material and are supplied in a premium wooden box with individual slots to ensure safe storage and easy handling. Ideal for laboratory, educational, and industrial applications where precision and consistency are essential.

FEATURES

High Precision
& Accuracy

Corrosion-Resistant
Stainless Steel
Weights

Premium Wooden
Box with Secure
Locking

Individual Slots
for Safe Storage
& Easy Handling

Durable &
Long-Lasting
Performance

Ideal for Laboratory,
Educational &
Industrial Use

SPECIFICATIONS

Product Name	Analytical Weight Boxes
Material of Weights	Stainless Steel (Non-Magnetic)
Material of Box	Wooden (Polished Finish)
Weight Finish	Mirror Polished
Set Configurations	1 mg – 500 mg, 1 mg – 1 g, 1 mg – 2 g, 1 g – 10 g, 1 g – 20 g, 1 g – 50 g, 1 g – 100 g, or as per requirement
Weight Class	Class M1 (OIML Standard)
Box Type	Wooden Box with Foam / Velvet Slot
Application	Laboratory, Educational, Industrial Use
Optional	Calibration Certificate available on request

APPLICATIONS

Laboratories for precise mass measurement
and calibration

Educational institutions for practical
experiments

Industrial quality control and testing

Calibration of balances and measuring
instruments

Research and development applications

ADDRESS

62 Azad Nagar, Near Rampur Chowk;
Behind Khalsa Tent House,
Ambala Cantt, Haryana,
133001 India
