About Us

Trusted for our our experience of 10 years in this vertical, we, Technocrat Engineering And Solutions are counted among the leading manufacturers of India. Our wide offered range includes Worm Gears, Speed Sensor, Stainless Steel Gears, Speed And Direction Sensor, etc. All these products are highly preferred because of durability and smooth performance. The use of A grade material makes our offerings incomparably qualitative. Although, our brand is considered world-class in markets, but we offer it at affordable prices for the ease of clients. They constantly place bulk orders for our creations which are completed within the promised duration. This is due to our large manufacturing ability. We have invested well in our facilities that help us to create exceptional product in large quantity. Moreover, our company has a smart infrastructure equipped with modern technology. Our premises comprises several different units like manufacturing, quality testing, R&D, warehousing and packaging. All the departments are managed by educated and diligent employees. They maintain smooth trade with major markets and ensure our positive image in the industry. There is a team which is available round the clock to render support service by resolving the queries of customers.

In the year 2010, we, Technocrat Engineering And Solutions emerged in the markets with the aim to offer high in class products. Our gamut comprises Rotational Speed Sensor, Helical Gears, Timing Belt Pulleys, Magnetic Reed Speed Sensor, etc. These items are supplied from our enterprise situated in Coimbatore, Tamil Nadu (India). With a completion of a decade in this segment, we have acquired a leading position. Customers all over the country trust our quality standards. In addition to this, they highly prefer the ethical way of our team while serving them. These two factors highly convince them to stay with us.
